POWER

The smart e-bike for your urban style – the REVO-C Urban. Digital. Powerful.

36

FLEXIBILITY

The folding e-bike for everyone who leads a sustainable and flexible life.

28

WHEREVER

The urban e-gravel bike for everyday riding and fun galore.

38

DISCOVER YOUR NEW MOBILITY.

THE PERFECT BIKE EVERY TIME.

Our new Catalogue 26 focuses totally on what sets us apart. Mobility that suits you – and your lifestyle. Every single bike is hand-crafted in Germany. With exacting attention to detail and the aim of offering you more than just a means of transport. We produce bikes that see you through day-to-day life, and take you out on riding tours – giving you this special feeling of freedom that only cycling can offer.

Our new products showcase once again this year how diverse Custom Made can be: The FOLDY brings a breath of fresh air into the world of compact folding e-bikes. It's lightweight, flexible and ready for impromptu rides around town – for everyone who places value on being mobile and independent.

The REVO-C combines powerful e-bike performance with sophisticated technology and a progressive design. A statement for anyone who sets store by impressive performance and a contemporary look.

And the STRYVAe introduces a certain sporty dynamism to our world of e-bikes. It loves speed as much as off-road adventure – for people who enjoy cycling with all their senses and with total passion.

Alongside our proven product range and the high-performance PRO models, Catalogue 26 offers you even more opportunities to configure your personal dream bike – to be as individual as you yourself. For your everyday life. For your adventures.

For your attitude to life.

YOUR BIKE. CUSTOM MADE.

Welcome to VELO DE VILLE. With our custom-made concept, we offer customised bikes with the highest quality standards and attention to detail.

Our journey began back in 1966 with the founding of VELO DE VILLE. From the very beginning, tradition and a passion for customised bikes have been anchored in our DNA. Our company's philosophy is deeply rooted in the idea that every product tells a unique story.

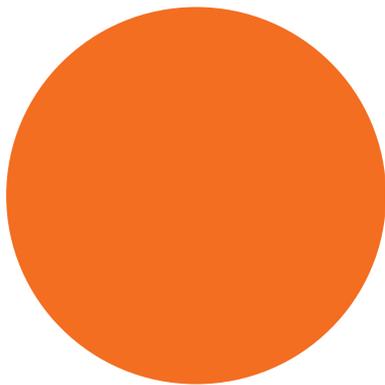

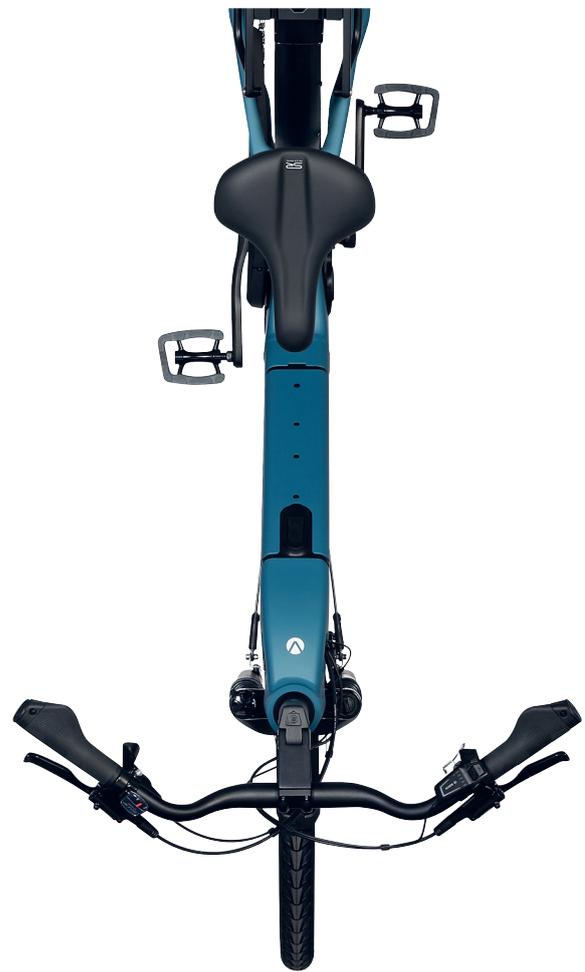

Today, over five decades later, VELO DE VILLE consists of a diverse community of over 300 experts from more than 35 different nations. Together, we share the vision of creating e-bikes and bicycles that leave nothing to be desired and provide long-lasting pleasure because they are tailored to the individual needs of our customers. This collective expertise and passion is reflected in every handcrafted bike that leaves our factory.

THE FACTORY

In the halls of VELO DE VILLE in Altenberge, Germany, customised bikes are created in one of the most modern bicycle production facilities in the world. Here, every bike is handmade and unique. We go above and beyond premium standards by not only carrying out the assembly, but also building the wheels and powder coating our bikes ourselves.

From the start of assembly to delivery - every bike bears the signature of people who are committed to sustainable mobility. And with pride, because every one of our bikes is 100% Made in Germany.

TECHNOLOGY THAT INSPIRES

In our ongoing mission to offer innovative mobility solutions, VELO DE VILLE relies on pioneering technologies. Our bikes combine state-of-the-art electric drive systems with intelligent functions to offer all customers an unrivalled riding experience. In close cooperation with leading companies in the bicycle industry, we develop innovative solutions that focus on precision, durability and advanced customisation options.

TOGETHER FOR EXCEPTIONAL SERVICE

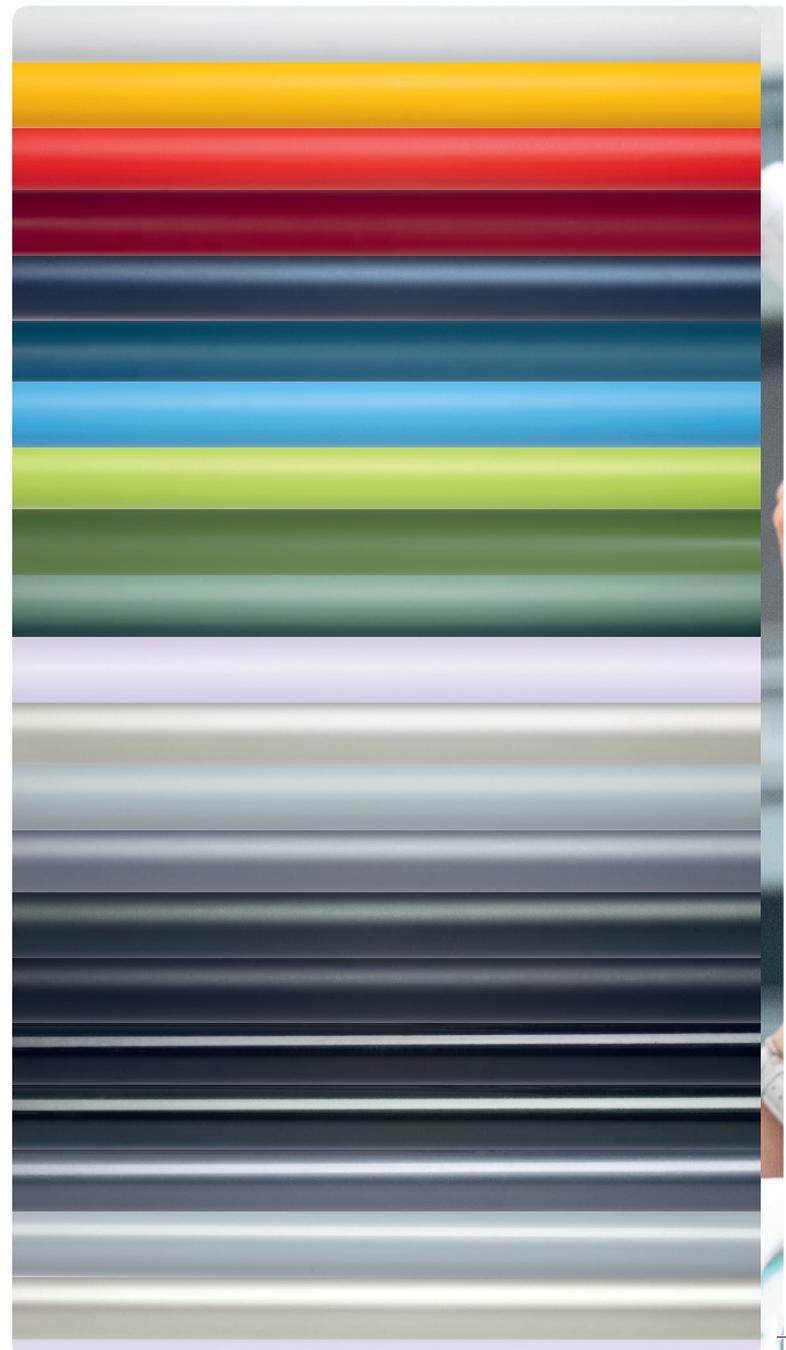

Our specialist retail partners stand for first-class service not only at the time of purchase, but also beyond, and can always count on our support. Together, we offer our customers exactly the bike and service they desire.

Long-term and sustainable partnerships are our top priority as a family business.

COLOURS THAT TELL STORIES

Immerse yourself in the world of colours at VELO DE VILLE – because here they are more than just pigments on a frame. They are an expression of different personalities, an extension of personal style. In addition, the quality of our powder coating not only guarantees aesthetics, but also excellent resistance and durability.

WE TAKE RESPONSIBILITY

We take responsibility for the environment and our surroundings. Our unique production process is designed to avoid overproduction and utilise resources sparingly. Each bike is only manufactured to individual order, which not only protects the environment, but also ensures that every VELO DE VILLE bike is produced with attention to detail.

In addition to variety, sustainability and quality, our social responsibility is particularly important to us. Our primary goals are both happy customers and happy employees. To achieve this, humanity, tolerance, respect and equal opportunities are our core values. That is why we actively support people with disabilities, who make up 10% of our team and are an integral part of our company's success. This enables us to integrate people with different disabilities into our day-to-day work and to treat each other as equals. This philosophy has characterised us from our beginnings to the present day.

CREATE THE FUTURE ON TWO WHEELS

Configure your dream bike and experience the future on two wheels with VELO DE VILLE. Our bikes are not just vehicles, they are a companion and a piece of individuality.

Get on and see for yourself, because what could be more convincing than a personal test ride? You've now learned a lot about us, but ultimately nothing can replace the feeling of sitting on one of our bikes – because on a VELO DE VILLE, every ride becomes a unique adventure.

Want to find out more
about VELO DE VILLE?

IN 4 STEPS TO YOUR DREAM BIKE

1 FIND THE PERFECT CATEGORY FOR YOU.

Each bike is as unique as you are! Choose the category that best suits your daily life and adventures:

	ALLROUND	SUV	COMPACT	FULLY TOUR
Motorisation	Bosch / Neodrives	Bosch	Bosch / Mahle	Bosch
Belt drive possible	yes	yes	yes	yes
For long tours	++	++	o	++
Light off-road	+	++	+	++
Short distances in the city	++	+	++	+
For commuters	++	++	o	o
Travelling with a lot of luggage	++	++	+	o
For comfortable riding	+	+	+	++
Weight*	from 23 kg	from 22 kg	from 17 kg	from 26 kg

	CARGO	URBAN LIGHT
Motorisation	Bosch	Mahle / Fazua / DJI
Belt drive possible	yes	yes (except REVO-C / 6TY)
For long tours	o	+
Light off-road	o	o
Short distances in the city	++	+
For commuters	+	+
Travelling with a lot of luggage	++	o
For comfortable riding	+	o
Weight*	from 31 kg	from 16 kg

*Depending on the configuration, the weight may be significantly higher. The lowest possible variant is specified.

Learn more about our model categories.

2 FIND THE RIGHT MODEL SERIES FOR YOU.

Within each category, you will find different model series that vary in features and price. To help you choose your dream bike, we present the key features and differences of our series. First, select the desired category (Allround, SUV, Compact), and then find the right model series for you.

4 CONFIGURE YOUR DREAM BIKE.

Make it your bike! Whether it's your favourite colour, the perfect frame, or custom equipment options – your bike will be made exactly to your specifications. With attention to detail and premium quality, your dream bike will be ready for your adventures, typically within 2–4 weeks.

OUR COLOURS

Colours are personal. They tell stories, radiate energy, and express individuality. That's why colours are an integral part of our Custom Made concept. Whether vibrant or timeless, glossy or matte – in our colour palette, your customers will find their favourite.

Our ECO GREY is made up of the leftovers from a day's production of all other colours. The mixture is not only sustainable, as we avoid waste, but also a real eye-catcher.

SEASON COLOUR 26

”MADE FOR YOU AND NO ONE ELSE.

Some bikes don't just adapt to your everyday life – they enhance it. The AEB PRO is just such a bike: thoughtfully designed down to the last detail, with an optimised geometry, high-quality equipment and a clear goal – to offer you an exceptional riding experience day after day. Whether you're on a relaxed end-of-day ride, a weekend tour or your daily commute to work, the AEB Pro combines comfort with a sporty riding experience, making it a true

all-rounder. A bike that keeps pace with you. And maybe even makes you a little bit faster than you thought you were. With three frame styles and a wealth of configuration options, you can design your AEB precisely to suit you and your lifestyle. And adding your favourite colour transforms it into the bike you've always wanted – unique, just like you. Ready for your first unforgettable journey?

Discover the wide range of configuration options and customise the features of your AEB PRO to suit your needs!

“ IF IT FITS EVERYONE, IT NEVER FITS PERFECTLY.

Do you want to feel your bike's sportiness, not just see it? Then the SEB Pro is the bike for you. As the flagship of our SUV range, there's a good reason why its name carries an "S": a powerful look, dynamic geometry and maximum performance turn every ride into an experience.

Whether you opt for a low step-through, Trapez or Diamond frame – it's up to you decide how sporty you want your style to look. Robust, elegant and ready for any terrain, the SEB combines comfort with genuine riding enjoyment.

Choose your style. Choose your SEB.

QUESTIONS FOR MATZE

“Everyone who knows me is aware that the issue of inclusion is very important to me.”

Mathias, you're known for your humour, your energy and your sporting ambition – what motivated you to become part of the VELO DE VILLE family?

I didn't have to think for long when VELO DE VILLE asked me if I wanted to become part of the company. Everyone who knows me is aware that the issue of inclusion is very important to me. Inclusion at VELO DE VILLE is more than just marketing – the company actively embodies it. This fact plus its family business values convinced me. And they also make good bikes.

What do you particularly like about VELO DE VILLE compared to its competitors?

The bikes are truly something special. VELO DE VILLE don't just produce bikes – they create one-offs. Every rider can select their own colour, tyres or even the handlebar etc. So what you get is a perfect, top-quality bike that's just such fun to ride. And that's precisely what sets VELO DE VILLE apart from many other brands.

What impressed you most about your first visit to the VELO DE VILLE factory?

I was blown away by the employees' passion. Everyone welcomed me so very warmly and I had the impression that everyone really enjoyed working there. I felt that the employees really identify with the company. Also I was particularly impressed by the high percentage of manual work on the bikes. Honestly, I didn't expect that.

What makes the FOLDY such a special bike for you?

The FOLDY has many benefits. Whether you're tall or short, the FOLDY works for everyone. And I know what I'm talking about. I always had problems finding a bike that fitted me. At most bike retailers, I had to go to the children's department to find the right size. Now I have my own FOLDY, built specially for me. I just love riding through the countryside and when I've had enough, I just fold up the bike and continue by bus.

58 (1,70- 2,00M)

The REVO-C comes in two universal frame sizes. For optimum stability, we have deliberately chosen short seat tube lengths, which measure 43 cm and 48 cm respectively. However, the geometry of the frame is designed in such a way that it effectively simulates frame sizes of 53 cm and 58 cm. This allows for a range of frame sizes from 43 cm to 58 cm, which can accommodate body heights from 150 cm to 200 cm.

LOADY ACCES- SORIES

Whether you're off on a big trip with the whole kit and caboodle, quickly popping into town to shop, or commuting to work – the right accessories make your LOADY the perfect partner for all your plans.

Discover clever solutions to enhance your comfort, safety and flexibility. It's up to you how you ride your LOADY.

VARIO-BAR

The first ride bar that can be lowered on both sides offers more comfortable access and also has fall protection for passengers.

WEATHER COVER

Protects passengers on the carrier from wind and weather.

BICYCLE HOOK

The Bicycle Hook allows you to carry bicycles and children's bikes up to 14 inches.

SIDE POCKETS (SET OF 2)

Bag perfectly matched to the dimensions of the LOADY luggage carrier for extra storage space.

TRANSPORT BAR

Divides the seat or loading area and thus enables greater safety during transport.

ADAPTER FOR TRAILER COUPLINGS

The LOADY can now also tow trailers with this accessory.

RAW EDITION

Maximise your cargo space with our Raw version. The innovative combination of the Airliner system and lashing straps allows you to adjust and secure your cargo exactly as you need it. This ensures maximum safety during transport and optimal use of space.

RAIL EDITION

Choose the Rails version for a highly flexible cargo-only e-bike. Ideal for transporting boxes and other packaged goods, this version ensures your cargo is transported safely. For added stability, you can use tensioning straps to keep everything firmly in place.

FAMILY EDITION

Go for the family version for a versatile e-bike that has been specially designed for your loved ones. With a comfortable child seat and a protective rain cover, this model offers a safe and enjoyable ride for the whole family. An optional Maxi Cosi adapter also ensures the safe transport of your young child.

BOX EDITION

Choose the Box version for a safe and practical cargo e-bike. This model features a sturdy hard top with a lock and offers a safe and reliable solution for transporting goods. Perfect for keeping your items protected and secure during transit.

YOUR DIGITAL BIKE PASSPORT FOR ON THE GO

Digital, simple, carefree and free: with the VELOWALLET, paper chaos and lost documents are a thing of the past. All the important information about your bike – from operating instructions and receipt management to maintenance history and theft protection – is digitally and securely stored in one place.

The VELOWALLET makes your life as a bike fan easier and ensures that you can concentrate on the essentials – cycling!

THE ADVANTAGES IN YOUR HAND

With **VELOWALLET**, you always have a digital overview of your bike and benefit from numerous advantages:

Extended warranty

Enjoy added security: with the VELOWALLET, we extend the warranty on your frame by 2 years and offer you long-term protection.

Theft report

Effective protection against loss: Mark your bike as stolen so that passers-by and retailers are informed when they scan the QR code. You will be notified and receive the current coordinates of your bike – quickly and smartly.

Higher resale value

Build trust through transparency: The integrated residual value calculator and the seamless documentation of your bike noticeably increase the resale value.

Easy transfer of ownership

Secure and digital: transfer ownership of your bike to the new owner easily and without paperwork.

Personalised operating instructions

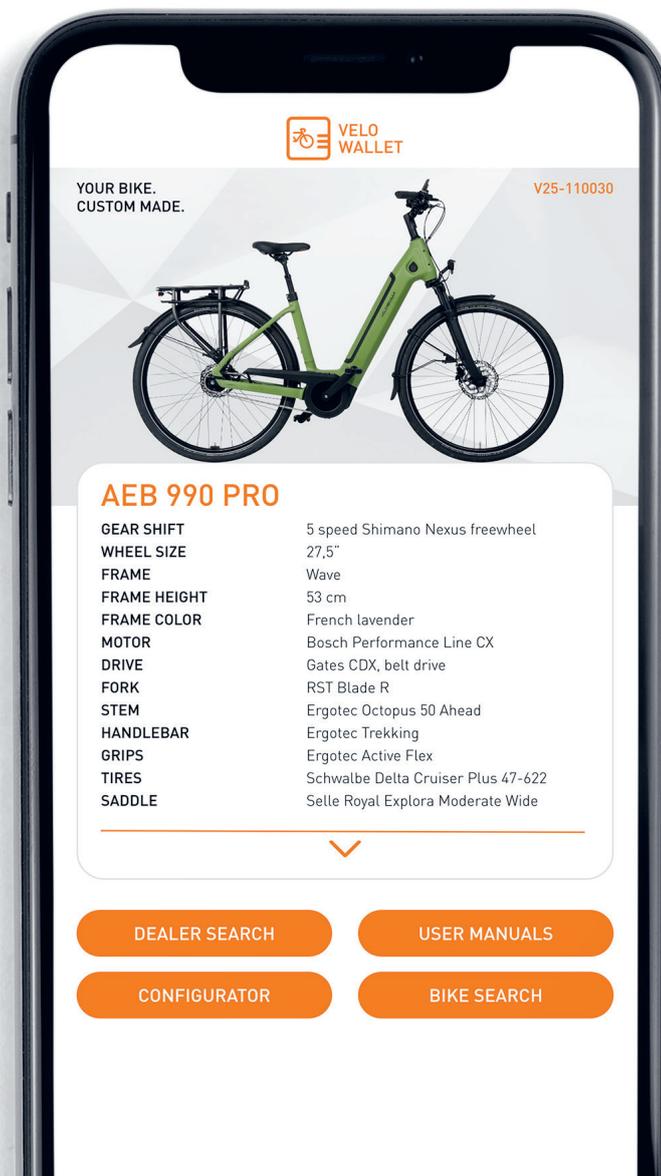

Always at hand: your personalised operating instructions for your bike are available to you digitally at any time.

Digital service booklet

All information in one place: centrally document maintenance and repairs and keep track of your bike's history.

Bike history on demand

Practical and transparent: dealers in the VELO DE VILLE network can view your bike's history and provide you with the best advice.

VELOMATE

YOUR SMART COMPANION FOR SAFETY AND CONTROL.

VELOMATE is the perfect addition to the VELOWALLET to ensure that your bike is fully protected and organised. While the VELOWALLET offers digital receipt management and maintenance history, VELOMATE provides GPS tracking, anti-theft protection and riding statistics for smart bike monitoring. With VELOMATE, you can view all your riding data on your smartphone, always know where your bike is parked, and, thanks to GPS tracking, be sure that you can easily find your bike in the event of theft.
