These instructions describe the installation and use of **VELO DE VILLE LOADY** side bags on the **VELO DE VILLE LOADY**

VELO DE VILLE LOADY side bags are compatible with the following attachment accessories:
Ride bar
Vario bar
Rodeo bar
Back rest
Weather cover

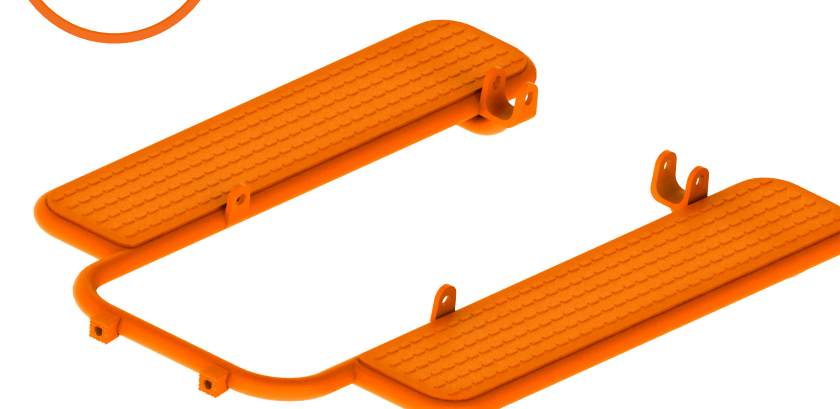

Contents:

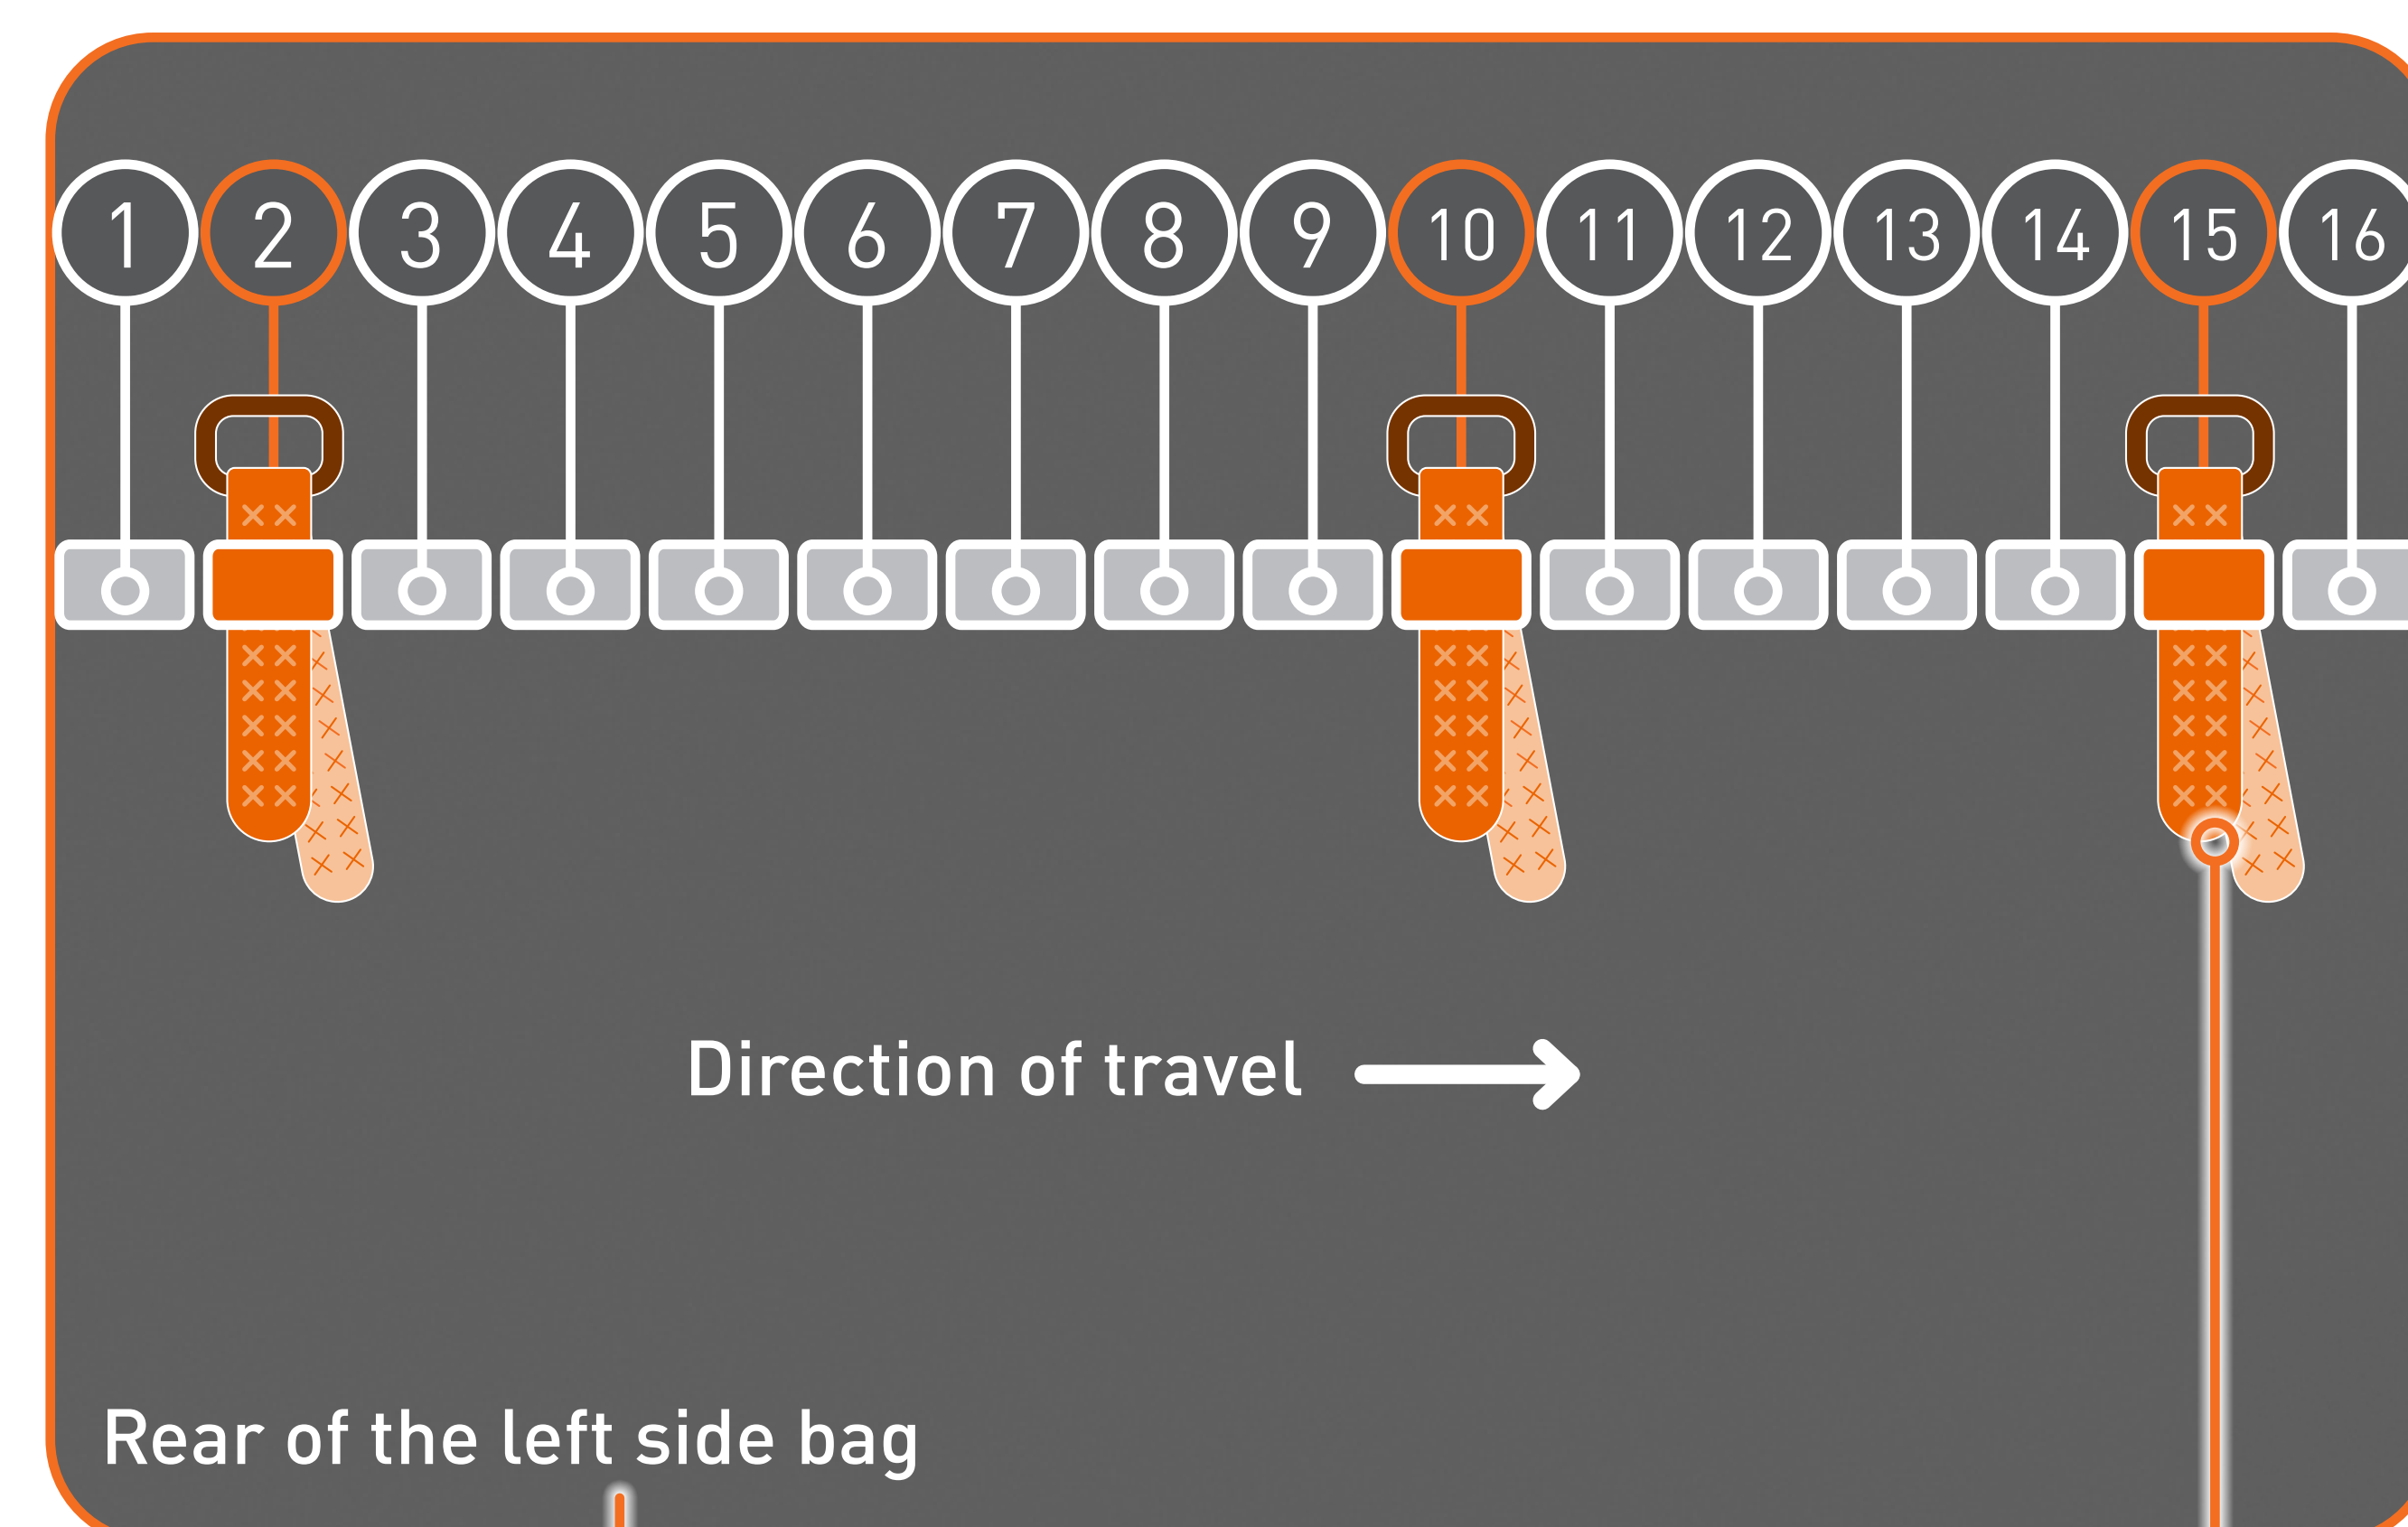

2x LOADY side bags

6x Velcro straps

LOADY footrests are needed to support the base of the LOADY side bag bases!
Art. no.: 179-50-00003

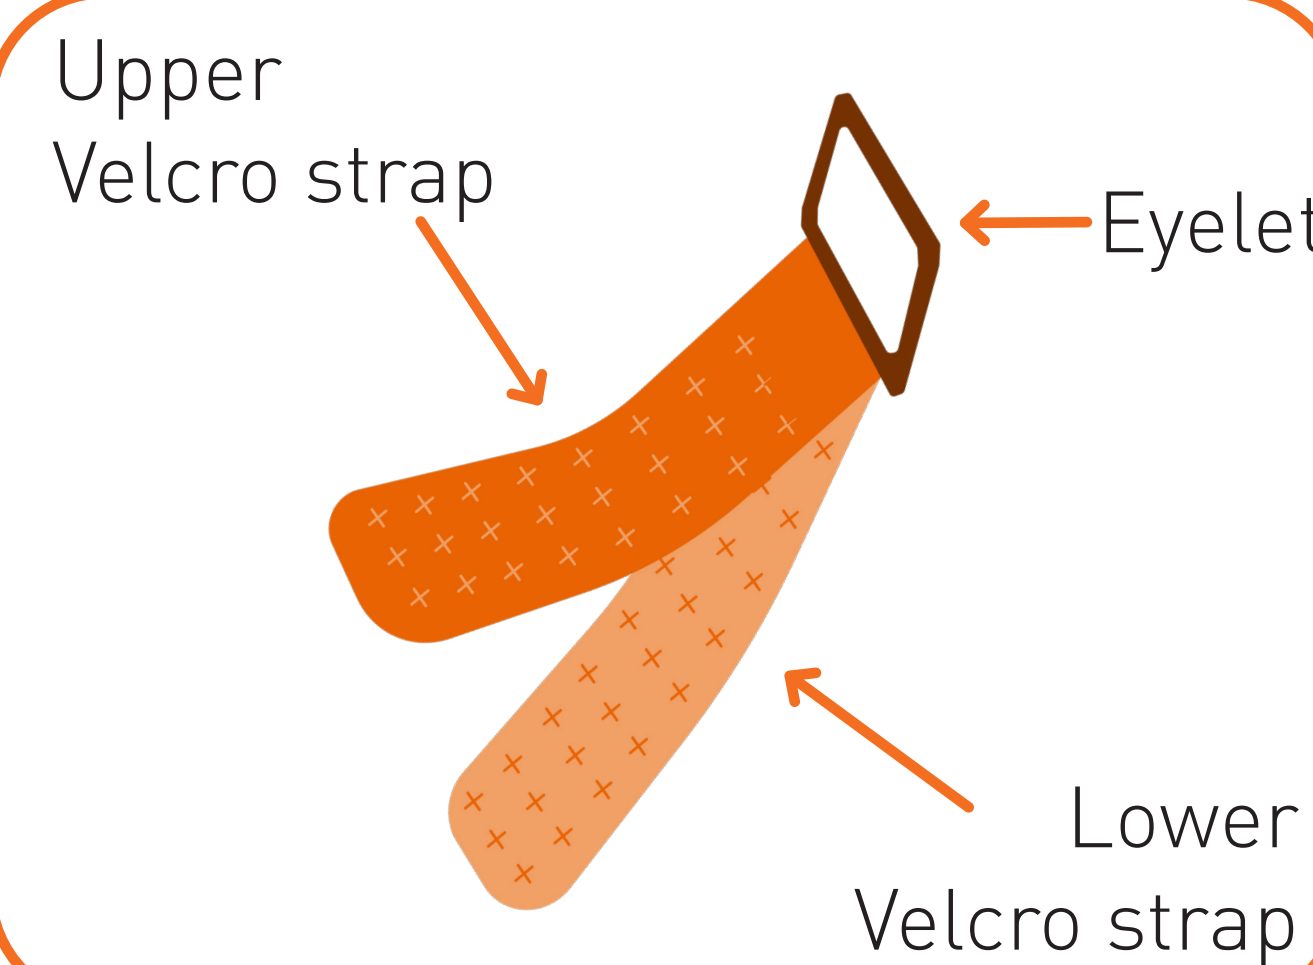

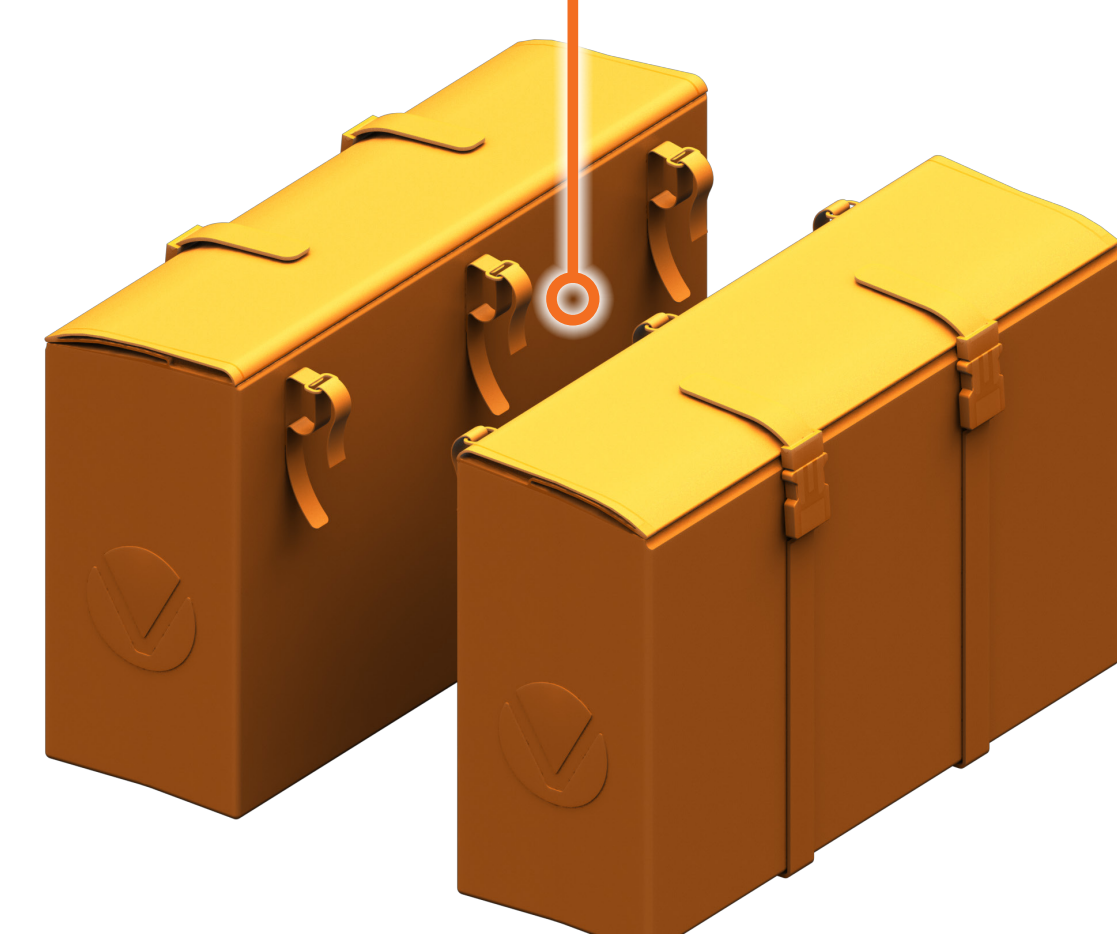

You need to thread the 6 Velcro straps (3 per side bag) supplied through the tabs indicated (2, 10, 15) on the back of the **LOADY** side bag before attaching the **LOADY** side bags to the **LOADY** rear carrier.

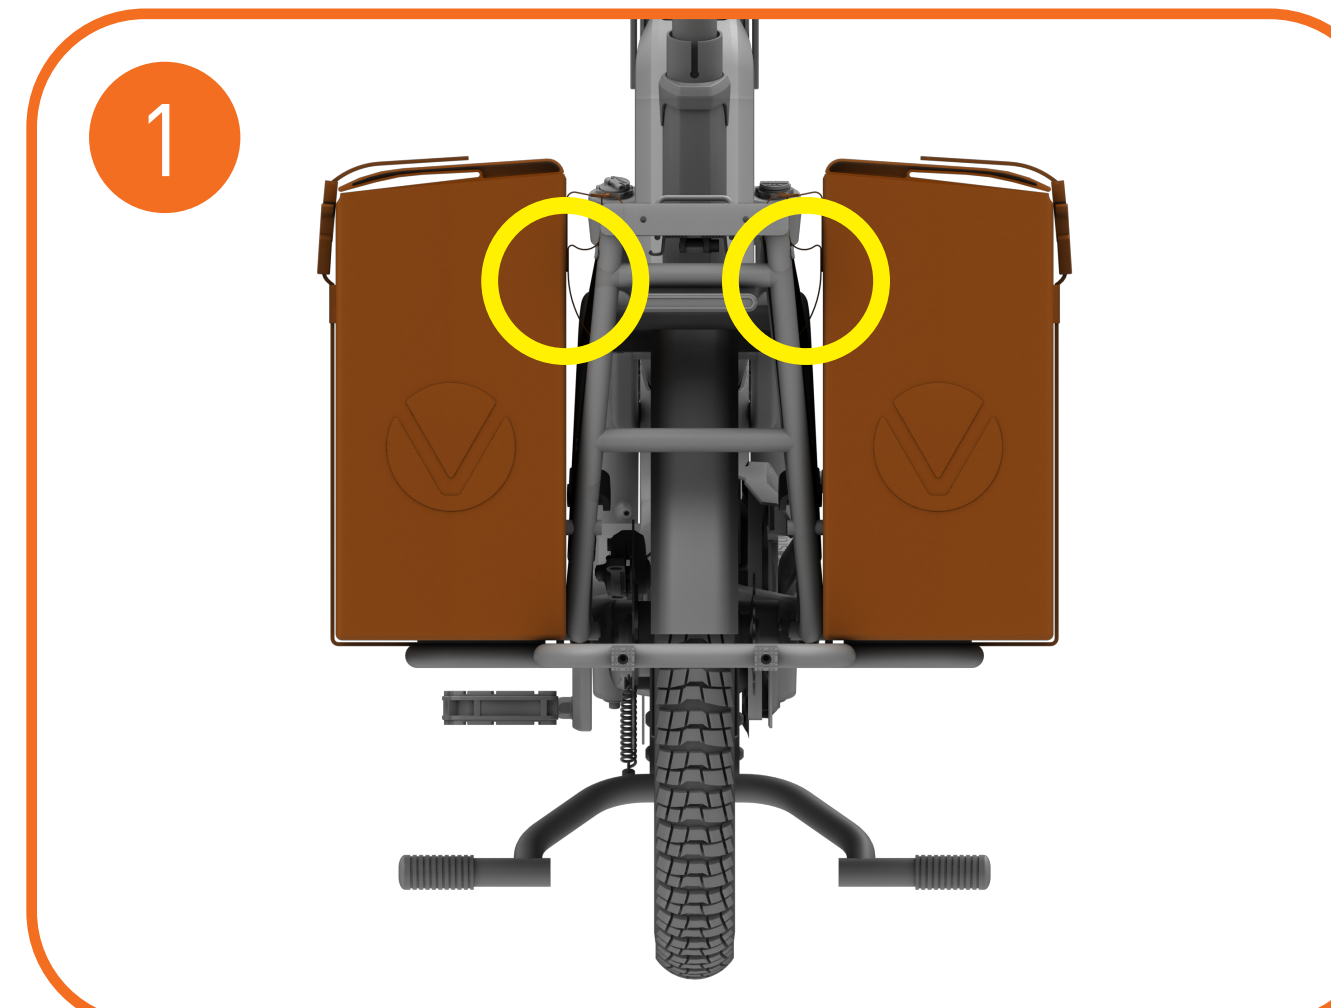

Note that the surfaces of the Velcro straps face away from the **LOADY** side bag.

The illustration shows the **LEFT LOADY** side bag, looking in the direction of travel.

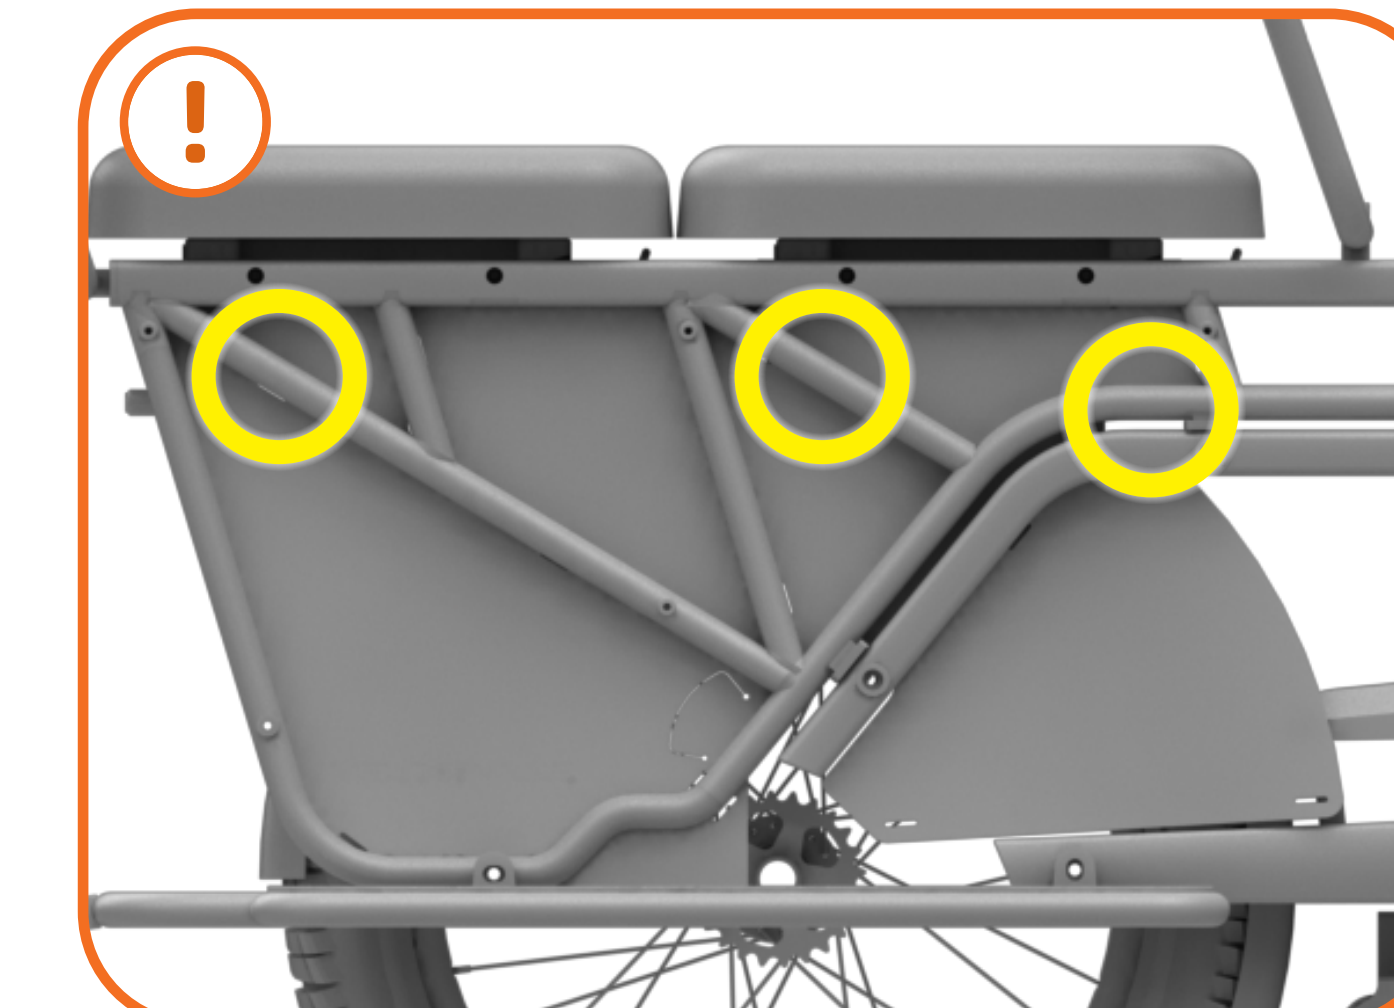

Fit the Velcro straps symmetrically as a mirror image for the right side bag.

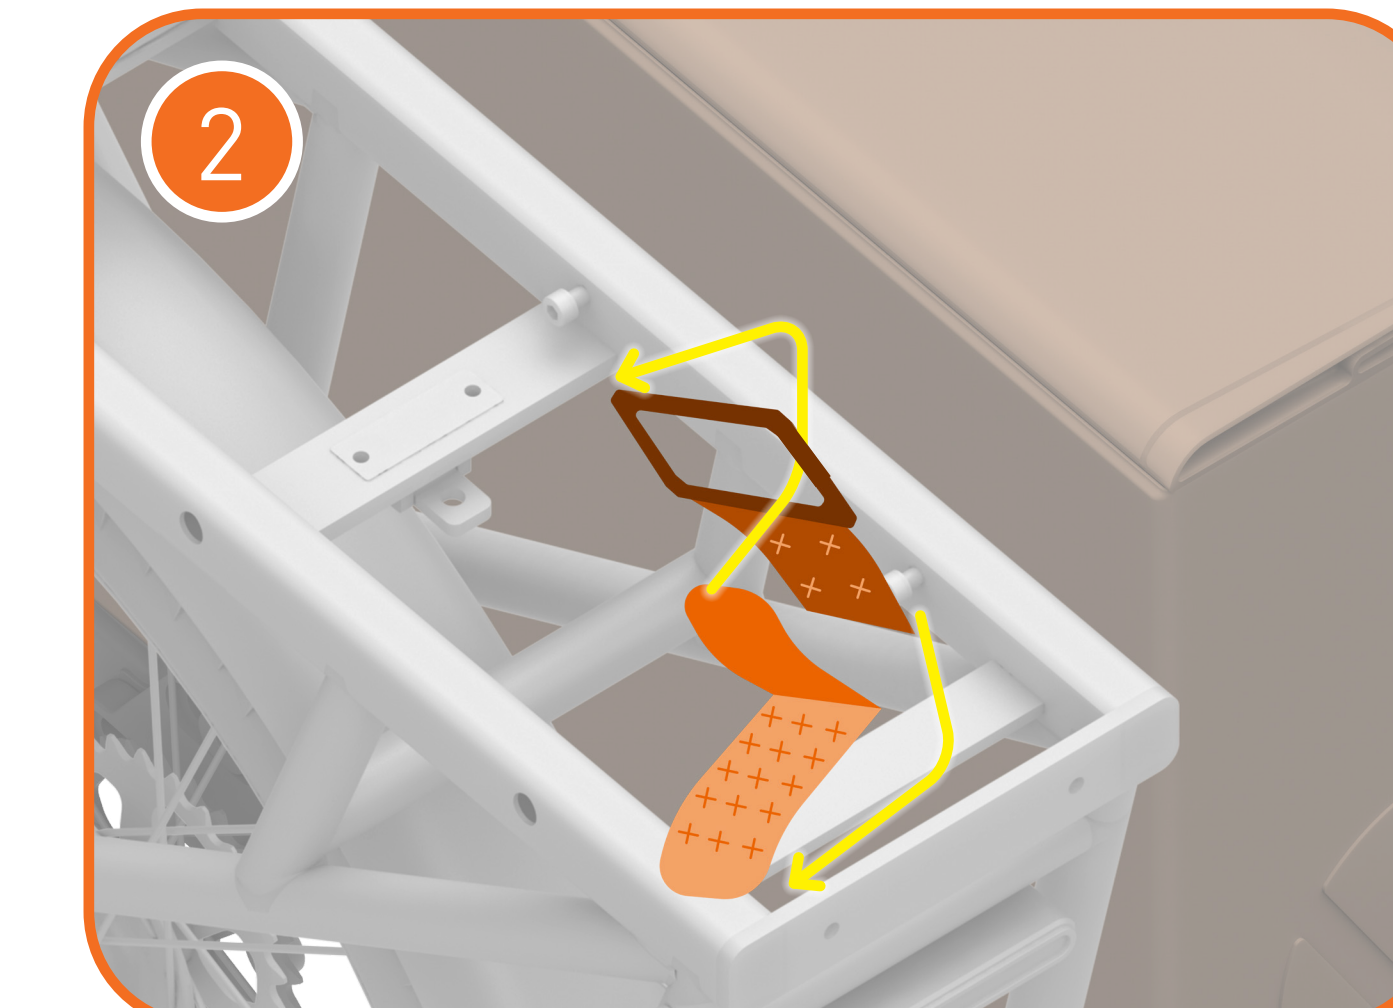

The Velcro straps of the **LOADY** side bags have two Velcro strips which are fitted by threading them in the specified position.

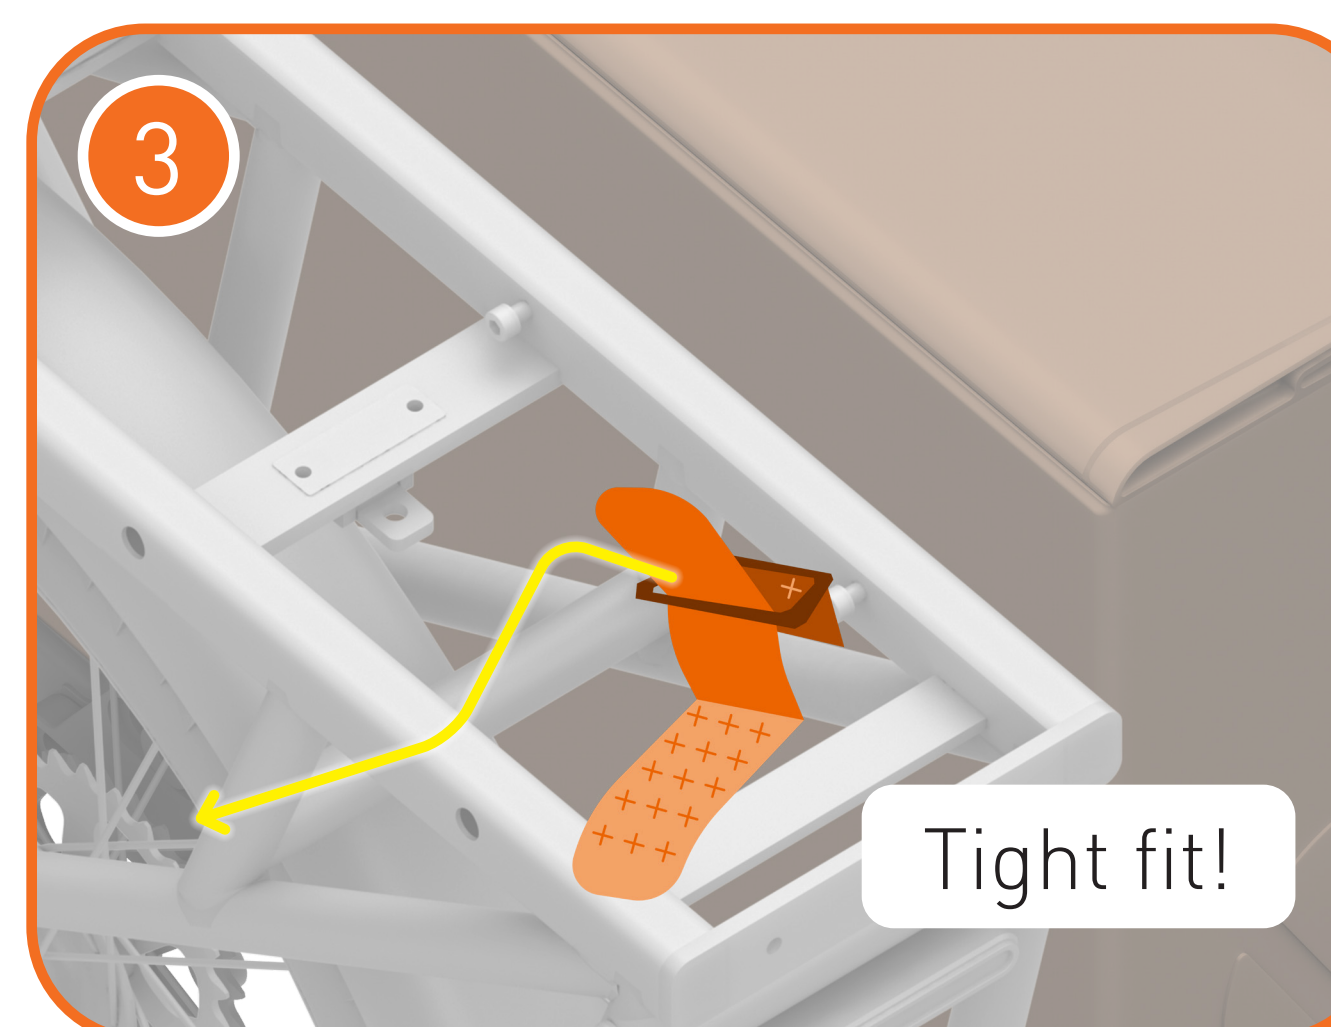

Position the side bags on the footrests.

Side bags are fitted on the struts indicated using the Velcro straps that have been threaded through to ensure that the **LOADY** side bags sit perfectly and securely.

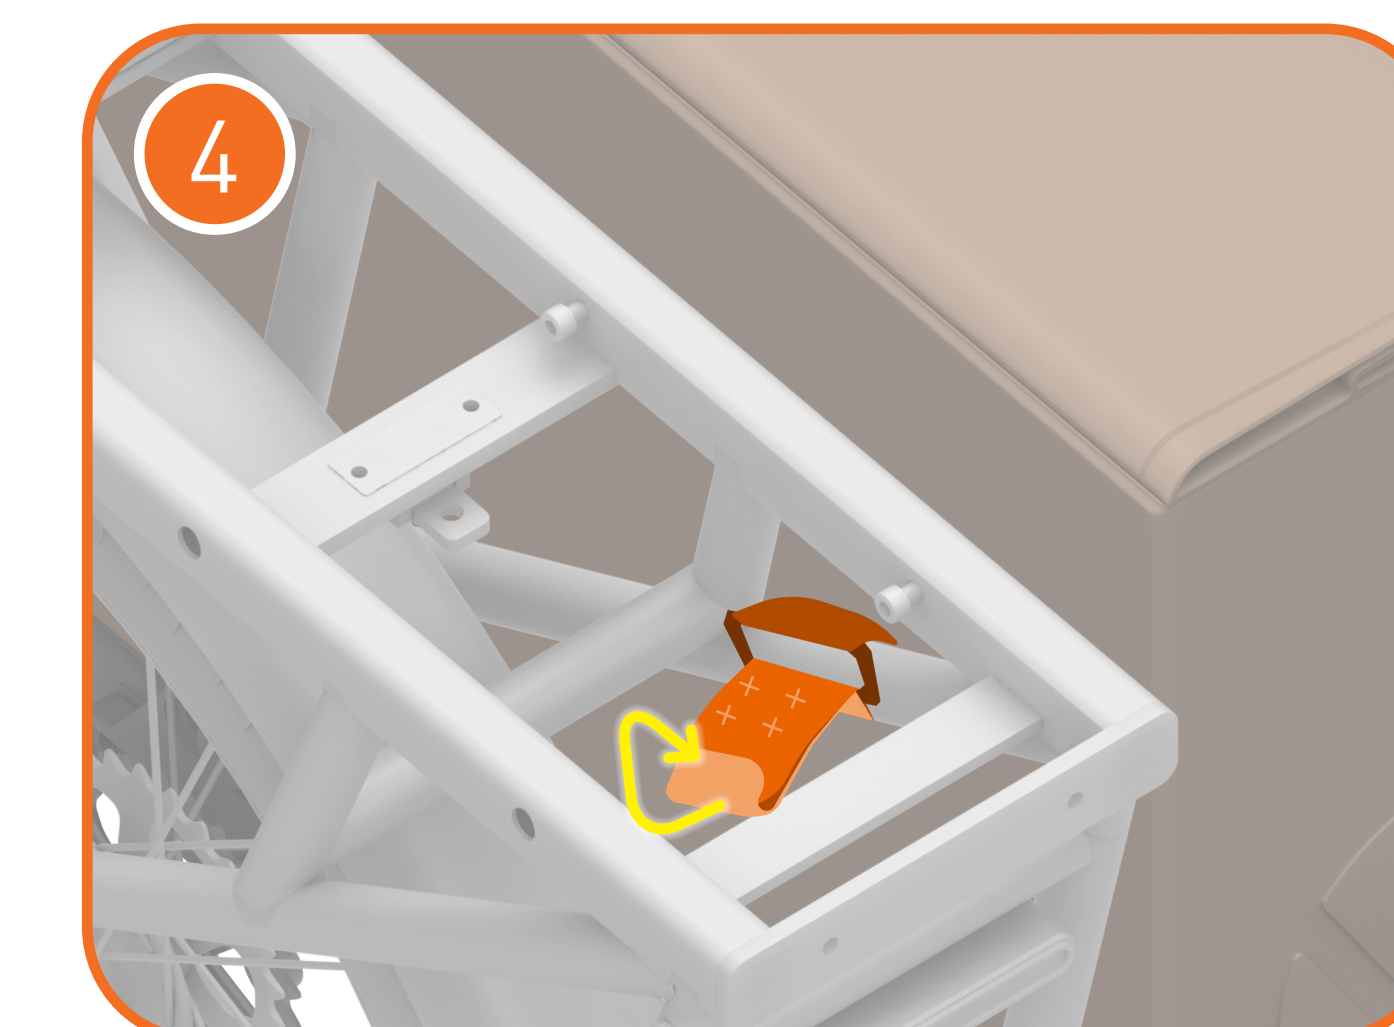

Thread the two Velcro strips under the struts of the **LOADY** rear luggage carrier previously mentioned.

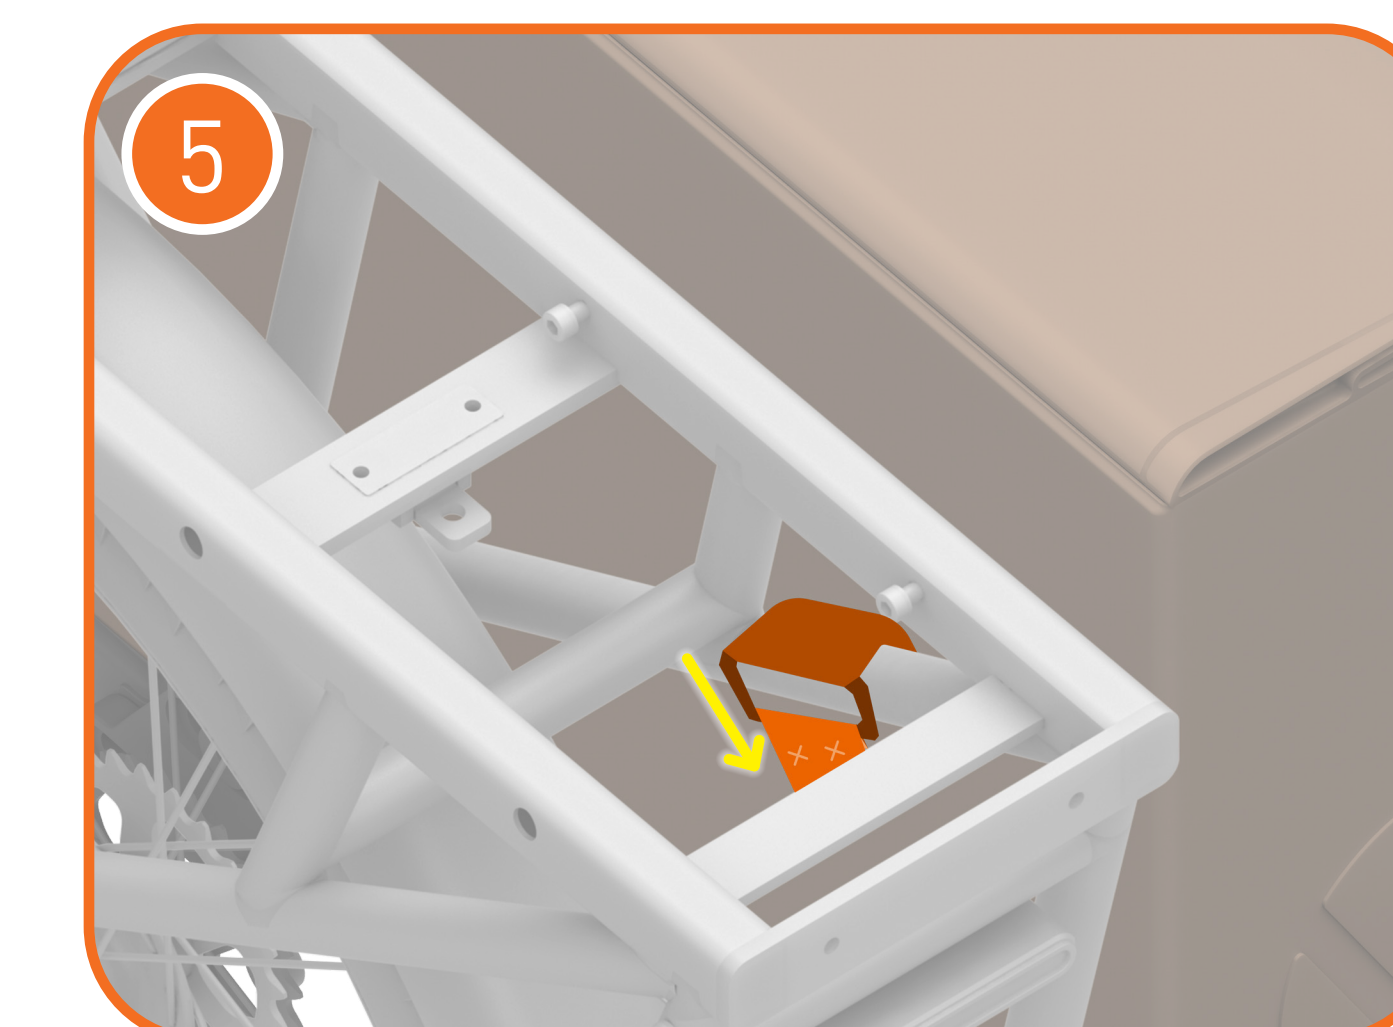

Then pull the upper Velcro strip through the eyelet.

Now pull the upper Velcro strip tight so that the **LOADY** side bag sits securely in this position.

Then fix the upper Velcro strip to the lower Velcro strip.

Then fold the end of the lower Velcro strip over the upper Velcro strip.

Finally, press the Velcro straps to the inside of the **LOADY** rear luggage carrier to conceal them.

Repeat the steps for the other securing straps at the prescribed positions.
