

VELOBVILLE

YOUR BIKE. CUSTOM MADE.

2022

YOUR BIKE. CUSTOM MADE.

With our Custom Made concept, we offer you a perfectly personalized product with the highest quality standards and attention to every detail. Through a personal relationship with the bike as well as our sustainable manufactory philosophy, we build individual bikes without overproduction.

Our aim is to produce e-bikes and bikes that make you happy and contribute to healthier mobility. Discover the diversity of our 2022 collection and configure your individual dream bike. Custom Made makes it possible.

HOW DOES THE TYPE DESCRIPTION WORK?

OUR MODELS SIMPLY EXPLAINED

We have named our models in such a way so that you can quickly recognise the significant features: which drive system is installed in the e-bike, where the battery is positioned and what purpose the bike is best suited for.

S SMOOTH
The Smooth frames complete the distinctive appearance of the bike with barely visible weld seams. In addition they convince with a higher stiffness, which is not only positively noticeable in the direct riding characteristics, but also in the loading capacity.

CONFIGURE THE BIKE OF YOUR DREAMS

on konfigurator.velo-de-ville.com

In our configurator you'll find the full range of possibilities. Choose your basic model and a shifting system and you can easily put together your own personalized bike.

EQUIPMENT PACKAGES OR SINGLE OPTIONS

With our equipment packages you have the choice to replace several bike components at once. Every equipment package makes the selected basic model even more individual and adapts it exactly to your intended use and your visual ideas. If you want to choose every single detail yourself, you are sure to find the right one for your unique dream bike with our endless configuration options. For more information and personal advice, please contact our dealers or online consultants.

COLOURS

Colours are personal. They tell stories, radiate your energy and express individuality. That's why colours are an essential part of our Custom Made concept. Thanks to our powder coating system, we can colour frames sustainably and more long-living and at the same time react quickly to current customer wishes.

We offer 32 colours: whether vibrant or timeless, glossy or matt, you're sure to find your favourite in our colour palette. Let your creativity run wild.

COMFORTABLE
& SUITABLE FOR
EVERYDAY USE

TREKKING BIKES WITH SEMI-INTEGRATED BATTERY

ALLROUND

EXPERIENCE ALLROUND

THE COMPANION FOR EVERY DAY

With a bike from the Allround series you are always well equipped. It accompanies you to work, on a weekend tour or on your way shopping. The battery can be removed particularly easily from the Intra+ models as no cover has to be removed. At the same time, it is secured against theft by the enclosing design of the frame and the lock. You can get our Allround bikes with drive systems from Bosch and Shimano.

DISCOVER OUR FRAME VARIETY

Our Allround models offer a variety of frames: the Trend and Wave frames offer a low entry and are particularly comfortable. As an option you also have Men frame. In-between you can choose the Unisex frame, which has a lowered top tube.

All of these frames convince with a balanced geometry, with which you can comfortably master any tour, no matter how far you want to go.

Allround Intube Bosch

Allround Intube Shimano

AT A GLANCE

Functional design with semi-integrated battery

Optimal geometry ensures a lot of fun on long tours

Powerful support with Bosch drive units

Discover the models AEB 200, AEB 400, AEB 800 & AEB 900 with all their options and configuration possibilities.

ALLROUND

HIDDEN POWER

OUR ALLROUND MODELS WITH FULLY INTEGRATED BATTERY

No matter how long the tour, how ambitious the goal - with the Allround models you are ready to take the next step in e-biking and trekking. Thanks to the many different frame shapes and the various options and equipment packages, you can design your own Allround bike and determine its equipment: choose your range with different battery capacities. Narrow or wide tyres, bright green or classic black. These and thousands of other options are waiting for you.

ALLROUND

EXPERIENCE INTUBE

In addition to the possibility of carrying larger batteries in the frame, the Intube models are also characterised by their clean look. When the battery disappears into the frame, it is well protected against environmental impacts and theft. This way don't have to bring your entire bike near a power socket, the battery is removable and can be easily charged anywhere.

DISCOVER OUR FRAME VARIETY

Chose your type out of our three different frames for your Bosch Intube bike: in addition to the Men frame, there is the elegant Trapez frame with its flattened top tube, as well as the comfortable deep frame with a low entry.

In addition to the comfortable tyres our Shimano models have an embedded frame battery, which makes the AES Intube models even more elegant. Whether you prefer a comfortable Wave or a sporty Hardtail frame, you decide on the destination of your next tour. The Shimano Allround bikes set you no limits.

FROM A SINGLE MOULD - SMOOTH INTUBE

The Smooth frames complete the distinctive appearance of the bike with barely visible weld seams. In addition they convince with a higher stiffness, which is not only positively noticeable in the direct riding characteristics, but also in the loading capacity.

SPORTINESS MEETS COMFORT

SUV BIKES OFFER YOU THE GREATEST FLEXIBILITY

Our LEB models come with 62 - very wide - tyres even in the basic version. In combination with sporty equipment, these bikes are perfect for touring, allowing you to ride almost any terrain comfortably and safely. In contrast to mountain bikes, which also have wide tyres, SUV bikes are fully equipped for the road and are therefore ideal for commuting or shopping. Perfect companions that combine safety, unique riding comfort and a lot of fun. See for yourself and overcome every pothole easily.

OUR SUV BIKES WITH SEMI-INTEGRATED BATTERY

The SUV bikes of our LEB series with their elegant frame make it easy to remove the battery. It is thief-proof by a lock and is also enclosed by the down tube to ensure a stable and firm fit even on rough roads.

AT A GLANCE

Easy removal of the battery

Wide tyres for stability and comfort

Equipment suitable for everyday use with lighting and luggage rack

SUV

VERSATILE SPORTINESS

OUR SUV-BIKES WITH FULLY INTEGRATED BATTERY PACK

Built into the frame, the battery is best protected against weather impacts and against theft by a lock. In addition, larger batteries can be accommodated in the down tube without the look modification of the frame. For convenient charging, you can easily remove the battery and charge it where it suits you.

AT A GLANCE

Battery integrated into the frame for a cleaner look and more capacity

Powerful drive systems from Bosch

Geometries perfectly designed for touring

CONVINCING COMPONENTS

EQUIPMENT

The equipment of all SUV bikes puts the focus on riding anywhere – no matter what the season or background. Therefore all parts are selected to be robust and yet visually fit perfectly into the overall picture.

RIDING FEATURES

The wide 27.5" tyres and matching geometry offer everything, what you can expect from an SUV bike - high manoeuvrability, exceptional riding experience and guaranteed safety.

OPTICS

You have the choice between the simple, classic VELO DE VILLE decor, which consists of a logo on the down tube and the type designation on the seat tube. You can also enhance the sportiness of the model with colour-coordinated stripes on the fork and seat stay.

DISCOVER OUR FRAME VARIETY

Each of the Intube frames impresses with its function and appearance: our frames - Men, Unisex and Deep - feature the integrated battery, which is state of the art and gets noticed only at second glance.

FROM ONE CAST - SMOOTH INTUBE

The Smooth frames perfect the appearance of the bike with barely visible weld seams and additionally convince with a higher stiffness, which not only has a positive effect on the direct riding characteristics, but also on the payload capacity.

UNIVERSAL TALENTS

FULLY CONFIGURABLE.
FULLY COMFORTABLE.
FULLY SUSPENSIONED.

AT A GLANCE

Unique comfort thanks to the suspended frame

Wide tyres for safe riding

Sporty and functional frame design

FULLY TOUR

EXPERIENCE FULLY TOUR

There is no need for compromise between sporty riding and genuine riding comfort. The suspension frames make riding safe, comfortable, but also dynamic riding possible.

Our Fully Tour bikes show you what it means to be able to ride (almost) everywhere. Whether you go shopping in the city crossing cobblestone pavement or shorten your route to a date via field track, the Fully Tour models offer you maximum flexibility. You can adapt the unique riding experience to your individual ideas by configuring your desired components.

DISCOVER OUR FRAME VARIETY

The Wave frame takes comfort to a new level: equipped with a Shimano drive system, it is as one of our most comfortable frames. In addition to this, we offer two unisex frames, both a compatible with Bosch or Shimano drive systems.

UNISEX WITH BOSCH DRIVE UNIT

Our unisex model with powerful Bosch drive system offers maximum riding fun.

LOW ENTRY AND UNISEX BIKE WITH SHIMANO MOTOR

The FES model with low entry offers even more comfort when getting on. All driving units by Shimano can also be equipped in our FES Unisex frame.

Fully Tour Intube Bosch

Fully Tour Intra und Intube Shimano

ULTRA-PRACTICAL COMPANION

PERFECT DRIVING CHARACTERISTICS.
ABSOLUTE FLEXIBILITY. COMPACT E-BIKES.

Our smallest bikes impress with their maneuverability and comfort and guarantee pure riding fun. Thanks to their compactness, they are easy to stow away and easy to transport. Perfect for the way to work, including a train journey or for the camper van.

Our compact model with Shimano power is even foldable and therefore even smaller and more compact to stow away. See for yourself!

AT A GLANCE

Extremely maneuverable due to its compact geometry

Especially eye-catching in bright colours

Easy to transport

THE CITY IS YOURS

LIGHT E-BIKES WITH FAZUA MOTOR

Discover the jungle of your city with our lightweight VEF model. With the modern Fazua motor you can get anywhere. And when you feel like bike riding, simply take out the motor and battery and ride your VEF using only your muscles. The smart hybrid solution with style.

AT A GLANCE

With approx. 20 kg lighter than most e-Bikes

Can be used as a bicycle, when battery and motor are removed.

Particularly chic with Silver Style package
