

VELOBBVILLE

YOUR BIKE. CUSTOM MADE.

2023

OUR BIKES. CUSTOM MADE.

With our custom made concept we offer you a perfectly tailored product with the highest quality standards and attention to detail. Through an almost personal relationship with the bike as well as a sustainable manufactory philosophy, we build individual bikes without overproduction.

Our expectation is to produce e-bikes and bikes that make you happy and contribute to healthier mobility. Discover the diversity of our 2023 collection and configure your individual dream bike.

Custom Made makes it possible.

CUSTOM MADE BY PHILIPP

"My name is Philipp. My job is to look after our customers and keeping them perfectly informed, both analogously and, above all, digitally. I ride the AEB 890 Smooth in the new Ocean Blue matt color. This is my bike. Custom Made."

CUSTOM MADE BY KATHI

"My name is Kathi. I take care of our customers' needs and make it easier for them to market dream bikes. I ride the SEB 990 Smart Range with the big 750 Wh battery. This is my bike. Custom Made."

CUSTOM MADE BY FLO

"My name is Flo. I make sure the software and servers are working to ensure our production never stalls. I ride the 45 km/h Speed 4Five. This is my bike. Custom made."

CUSTOM MADE BY LENA

"My name is Lena. In the final stage of production I make sure that your bike arrives perfectly assembled. I ride the new 6TY with trapezoidal frame in our sustainable Eco Grey. This is my bike. Custom Made."

WHICH BIKE IS PERFECT FOR ME?

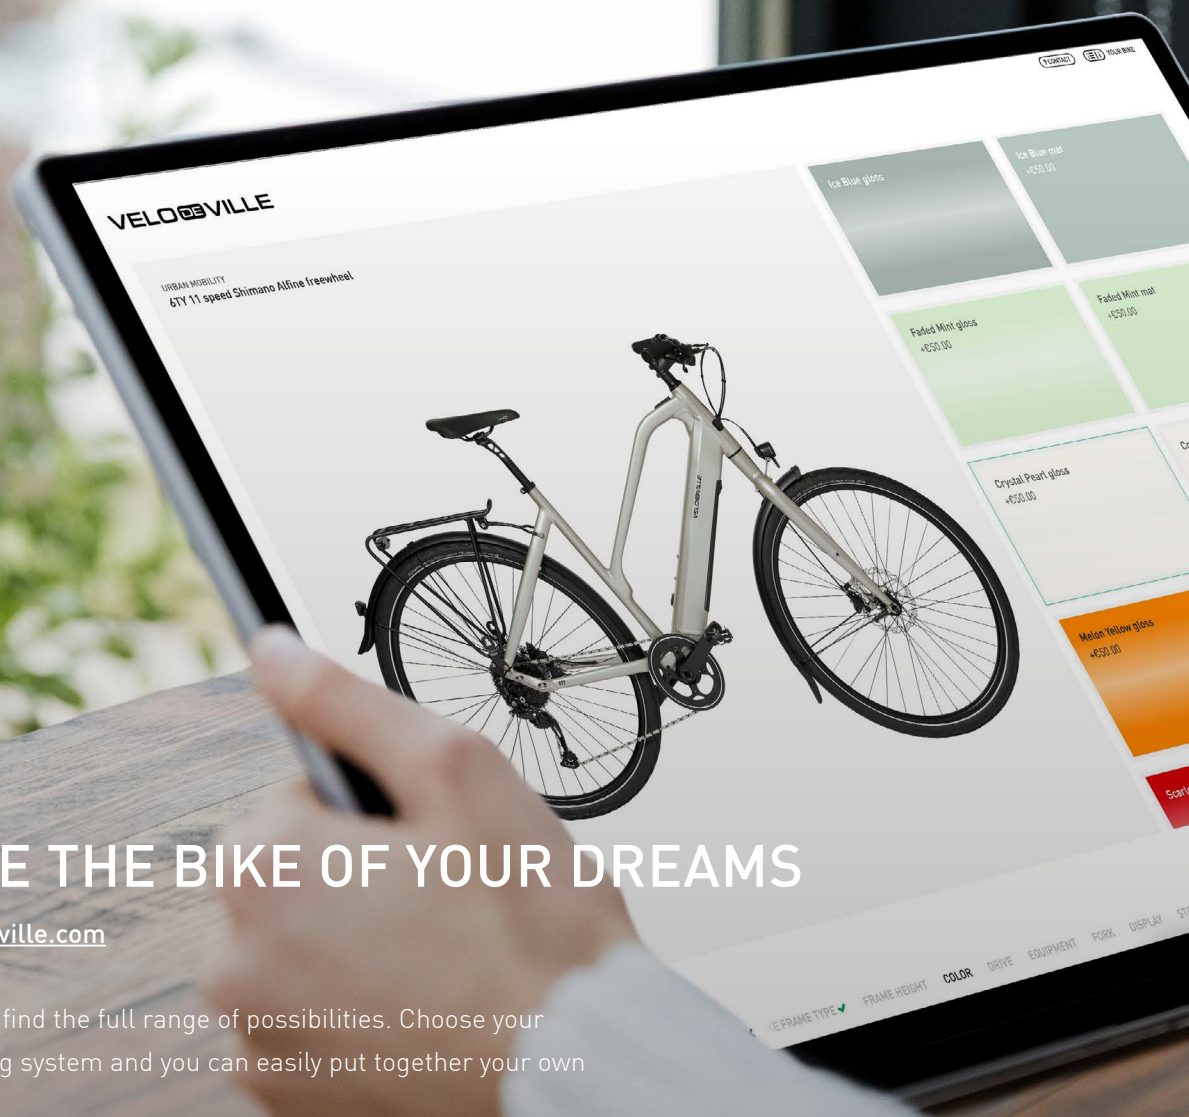

AEB, SEB, 6TY,... Many names and you don't know how to find the perfect bike for your needs? With this table we want to make it easy for you to find the perfect base model for your personal configuration.

| | ALLROUND | SUV | FULLY TOUR | URBAN MOBILITY | COMFORT | COMPACT |
|--------------------------------|----------|-------|------------|------------------|---------|---------|
| Motorisation | Bosch | Bosch | Bosch | Fazua / Neodrive | Bosch | Bosch |
| Belt drive possible | yes | yes | yes | yes (except 6TY) | yes | yes |
| For long tours | ++ | ++ | ++ | + | + | o |
| Offroad | + | ++ | ++ | o | o | + |
| A quick trip to the shops | + | + | + | o | ++ | ++ |
| For commuters | ++ | ++ | o | + | + | o |
| On the road with a lot luggage | ++ | ++ | o | + | o | + |
| For comfortable riding | + | + | ++ | o | ++ | + |

OUR MODELS SIMPLY EXPLAINED

We have named our models in a way that you can quickly recognize the important features from the name of the model: which drive system is installed in the e-bike, where is the battery positioned and which purpose is the bike best suited for?

CONFIGURE THE BIKE OF YOUR DREAMS

on konfigurator.velo-de-ville.com

In our configurator you'll find the full range of possibilities. Choose your basic model and a shifting system and you can easily put together your own personalized bike.

EQUIPMENT PACKAGES OR SINGLE OPTIONS

With our equipment packages you have the choice to replace several bike components at once. Every equipment package makes the selected basic model even more individual and adapts it exactly to your intended use and your visual ideas. If you want to choose every single detail yourself, you are sure to find the right one for your unique dream bike with our endless configuration options. For more information and personal advice, please contact our dealers or online consultants.

CUSTOM MADE BY ANDREA

"My name is Andrea. At the reception, I greet our guests and make sure everyone is comfortable. I ride the AEB 890 Deep in classic night blue. This is my bike. Custom Made."

FOR EVERY TOUR, FOR EVERY DAY

Bikes of the Allround series impress with their suitability for everyday use in any situation. Long tours in a comfortable riding position are a piece of cake, especially if the right motorization has been selected. Medium-wide tires, solid suspension and touring-friendly overall equipment round off the models.

There are various frame types and a huge range of options to choose from. With the Bosch motors there is now the choice between the proven and popular BES2 system and the new smart BES3 system.

(For differences feel free to use the purchasing guide on our website).

Many options for individualization

Optimal geometry for long tours

VERSATILE AND FAST

Our SUV bikes perfectly combine sportiness with the riding comfort of a trekking bike. Due to the wide tires, they are not only at home on most surfaces, but also benefit from the better suspension of the tires.

The 27.5 inch tires bring a more direct controllability and much more agility. This guarantees a sporty driving style.

Choose from different frames, colors and many components the perfect SUV combination for you.

CUSTOM MADE BY ANDRÉ.

"My name is André. I make sure that my colleagues always have functioning software and hardware. I ride the SEB 890 Smooth in chic Crystal Pearl. This is my bike. Custom Made."

Sporty driving guaranteed

Comfort and safety with wide tires

FULL COMFORT

If comfort is important to you when cycling, you like to relieve your back and do not want to feel every bump on the road, then our Fully Tour category is just right for you. Due to the full-suspension frame and wide tires paired with a classic trekking geometry, the FEB series guarantees pure riding comfort. The custom made principle also allows perfect individualization options.

At the same time, the bike remains sporty and nippy and is perfectly equipped for steeper climbs and longer tours thanks to the Bosch Performance CX motor.

Full suspension frame

Belt drive possible

CUSTOM MADE BY LARS

"My name is Lars. I take care of keeping our machines and fleet always functional. I ride the FEB 990 Deep with full suspension frame. This is my bike. Custom Made."

FOR YOUR URBAN LIFESTYLE

People who live in the city or travel to the city often have very special demands on their bikes. For many, the weight plays a key role, for others the speed to quickly master even longer distances to work matters.

We have a solution for everyone: The Urban Bike 6TY with the new Fazua engine impresses with its weight of around 20 kg. It is a real eye-catcher in terms of design, with the motor and battery only visible at second glance.

The category also includes two models with a drive system from neodrive.

The Tour 2Five and Speed 4Five are models that impress with a rear motor and a Pinion gear system. The Speed 4Five is an S-pedelec with pedal assistance up to 45 km/h, while the Tour 2Five supports up to 25 km/h.

CUSTOM MADE BY MAX

"My name is Max. I look after our dealers so that they can advise you perfectly. I ride the new 6TY with the powerful Fazua engine. This is my bike. Custom Made."

Perfect for every scenario

Modern, urban design

CLASSIC AND COMFORTABLE

The CEB collection is expanded this year with a real highlight: a carbon e-bike for maximum comfort and minimum weight around 20 kg.

CUSTOM MADE BY KATJA

"My name is Katja. In the HR department, I keep my colleagues' backs free so that everyone can focus on perfect bikes. I ride the ultra-light CEB 900 Carbon. This is my bike. Custom Made."

COMPACT POWER

The compact class is growing: In addition to the popular KEB, the collection will be expanded this year with the KEB Fold. A foldable compact bike with Bosch motor - small, agile, lots of power.

Learn more about our Compact-models

We still have them: bikes driven by muscle power. Choose your basic model from three categories and configure your bike to work perfectly for you and your needs.

Our A-series offers pure trekking pleasure for long tours, while the L-series is aimed primarily at the sporty rider.

The V-Series offers riding comfort paired with stylish details and a clear focus on design.
