

PRODUCT HIGHLIGHTS 2025

CUSTOM MADE FOR EVERYONE.

DISCOVER YOUR NEW MOBILITY.

With our passion for innovation and quality, we present the highlights of our 2025 programme: the LOADY for the cargo sector and the G 400 gravel bike. These new additions open up completely new possibilities for you – whether for everyday transport or your next off-road adventure.

Together with our high-performance PRO models, we are setting new standards for versatile and individual mobility. These developments make our mission clearer than ever: we want to make it even easier for you to design your personal dream bike. Whether for your daily commute or long tours – we will create a bike that perfectly suits you.

YOUR BIKE. CUSTOM MADE.

Welcome to VELO DE VILLE. With our custom-made concept, we offer customised bikes with the highest quality standards and attention to detail.

Our journey began back in 1966 with the founding of VELO DE VILLE. From the very beginning, tradition and a passion for customised bikes have been anchored in our DNA. Our company's philosophy is deeply rooted in the idea that every product tells a unique story.

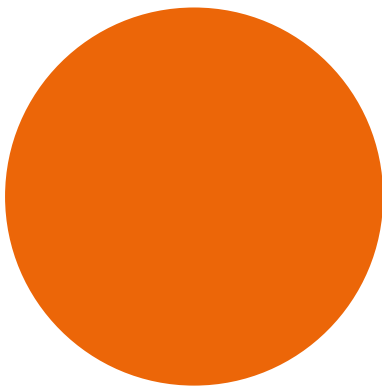

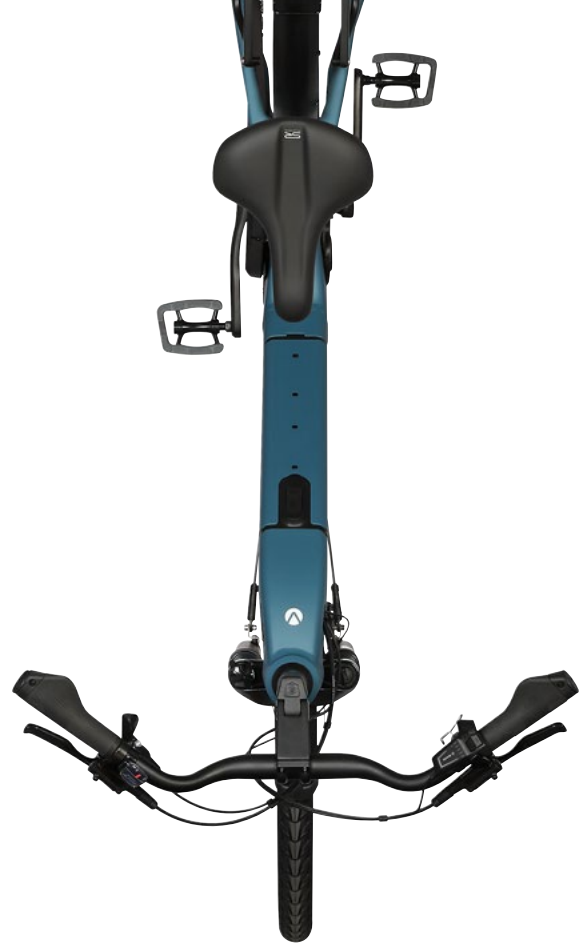

Today, over five decades later, VELO DE VILLE consists of a diverse community of over 300 experts from more than 35 different nations. Together, we share the vision of creating e-bikes and bicycles that leave nothing to be desired and provide long-lasting pleasure because they are tailored to the individual needs of your customers. This collective expertise and passion is reflected in every handcrafted bike that leaves our factory.

THE MANUFACTORY

In the halls of VELO DE VILLE in Altenberge, Germany, customised bikes are created in one of the most modern bicycle production facilities in the world. Here, every bike is handmade and unique. We go above and beyond premium standards by not only carrying out the assembly, but also manufacturing the wheels and powder coating our bikes ourselves.

From the start of assembly to delivery - every bike bears the signature of people who are committed to sustainable mobility. And with pride, because every one of our bikes is 100% Made in Germany.

TECHNOLOGY THAT INSPIRES

In our ongoing mission to offer innovative mobility solutions, VELO DE VILLE relies on pioneering technologies. Our bikes combine state-of-the-art electric drive systems with intelligent functions to offer all customers an unrivalled riding experience. In close cooperation with leading companies in the bicycle industry, we develop innovative solutions that focus on precision, durability and advanced customisation options.

TOGETHER FOR EXCEPTIONAL SERVICE

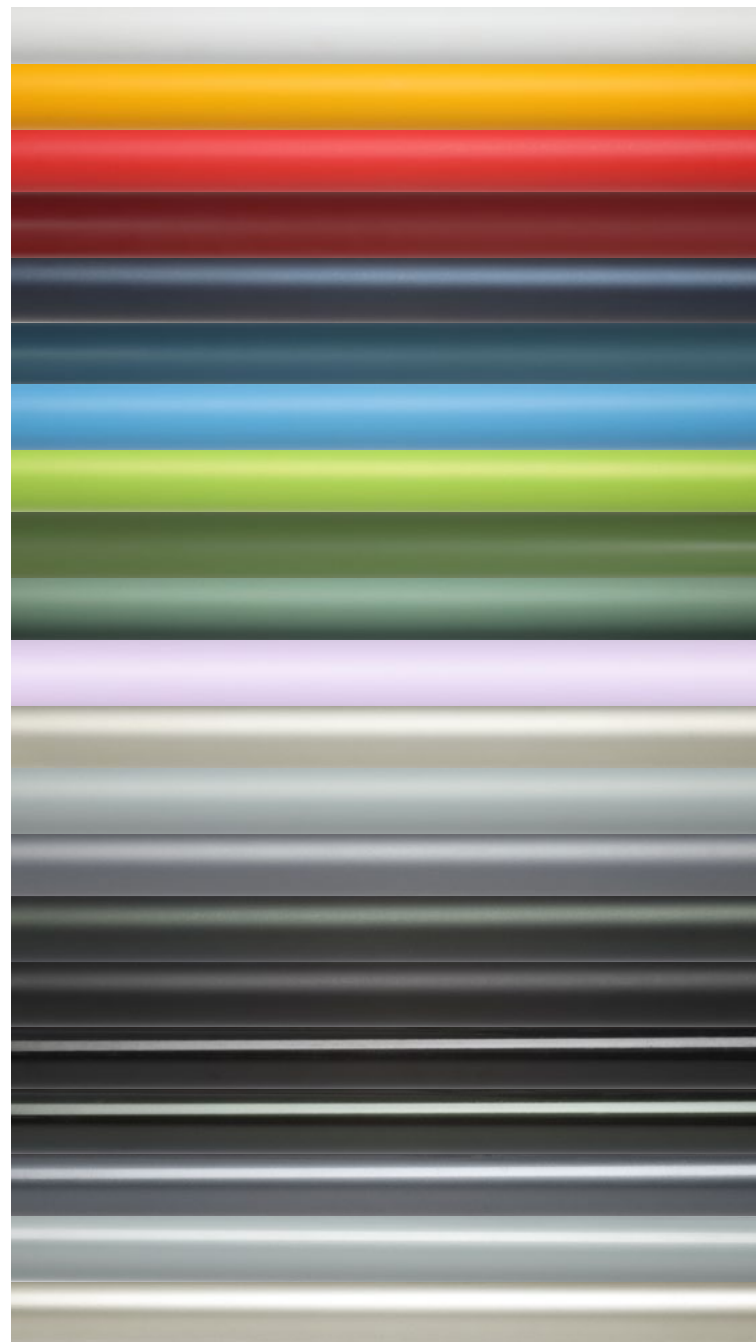

Our specialist retail partners stand for first-class service not only at the time of purchase, but also beyond, and can always count on our support. Together, we offer your customers exactly the bike and service they desire.

Long-term and sustainable partnerships are our top priority as a family business.

COLOURS THAT TELL STORIES

Immerse yourself in the world of colours at VELO DE VILLE – because here they are more than just pigments on a frame. They are an expression of different personalities, an extension of personal style. In addition, the quality of our powder coating not only guarantees aesthetics, but also excellent resistance and durability.

WE TAKE RESPONSIBILITY

We take responsibility for the environment and our surroundings. Our unique production process is designed to avoid overproduction and utilise resources sparingly. Each bike is only manufactured to individual order, which not only protects the environment, but also ensures that every VELO DE VILLE bike is produced with attention to detail.

In addition to variety, sustainability and quality, our social responsibility is particularly important to us. Our primary goals are both happy customers and happy employees. To achieve this, humanity, tolerance, respect and equal opportunities are our core values. That is why we actively support people with disabilities, who make up 10% of our team and are an integral part of our company's success. This enables us to integrate people with different disabilities into our day-to-day work and to treat each other as equals. This philosophy has characterised us from our beginnings to the present day.

CREATE THE FUTURE ON TWO WHEELS

Configure your customers' dream bike and experience the future on two wheels with VELO DE VILLE. Our bikes are not just vehicles, they are a companion and a piece of individuality.

Want to find out more
about VELO DE VILLE?

YOUR DIGITAL BIKE PASSPORT FOR ON THE GO

Digital, simple, carefree and free: with the VELOWALLET, paper chaos and lost documents are a thing of the past. All the important information about your bike – from operating instructions and receipt management to maintenance history and theft protection – is digitally and securely stored in one place.

The VELOWALLET makes your life as a bike fan easier and ensures that you can concentrate on the essentials – cycling!

THE ADVANTAGES IN YOUR HAND

With **VELOWALLET**, you always have a digital overview of your bike and benefit from numerous advantages:

Extended warranty

Enjoy added security: with the VELOWALLET, we extend the warranty on your frame by 2 years and offer you long-term protection.

Theft report

Effective protection against loss: Mark your bike as stolen so that passers-by and retailers are informed when they scan the QR code. You will be notified and receive the current coordinates of your bike – quickly and smartly.

Higher resale value

Build trust through transparency: The integrated residual value calculator and the seamless documentation of your bike noticeably increase the resale value.

Easy transfer of ownership

Secure and digital: transfer ownership of your bike to the new owner easily and without paperwork.

Personalised operating instructions

Always at hand: your personalised operating instructions for your bike are available to you digitally at any time.

Digital service booklet

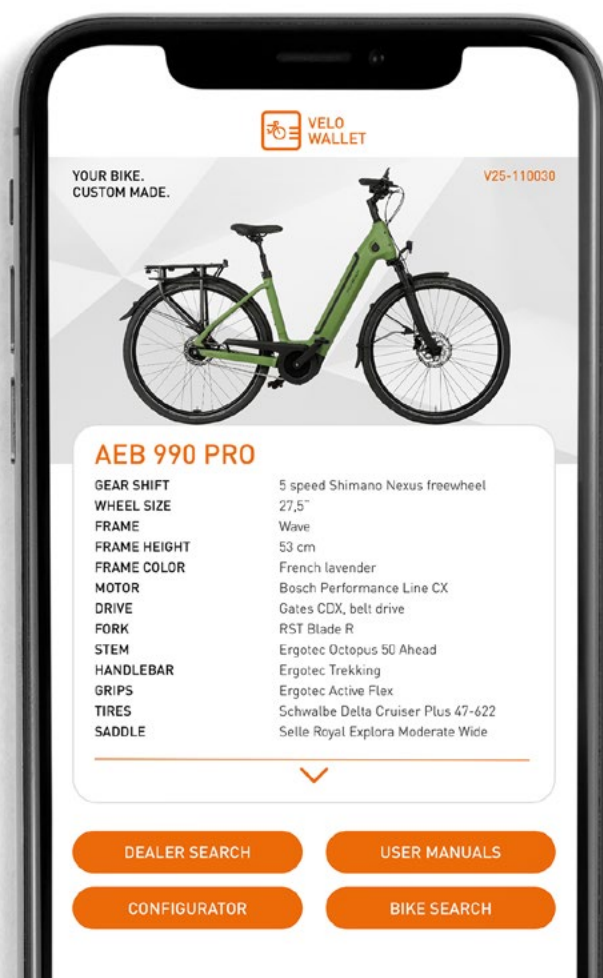

All information in one place: centrally document maintenance and repairs and keep track of your bike's history.

Bike history on demand

Practical and transparent: dealers in the VELO DE VILLE network can view your bike's history and provide you with the best advice.

Find out more about VELOWALLET and make your bike smart.

YOUR SMART COMPANION FOR SAFETY AND CONTROL.

VELOMATE is the perfect addition to the VELOWALLET to ensure that your bike is fully protected and organised. While the VELOWALLET offers digital receipt management and maintenance history, VELOMATE provides GPS tracking, anti-theft protection and riding statistics for smart bike monitoring. With VELOMATE, you can view all your riding data on your smartphone, always know where your bike is parked, and, thanks to GPS tracking, be sure that you can easily find your bike in the event of theft.

Your advantages with VELOMATE:

THEFT PROTECTION THANKS TO GPS TRACKING

ACCIDENT SAFETY

REDUCED INSURANCE

MAINTENANCE MANAGEMENT

DETAILED RIDE STATISTICS

DEALER SERVICE

1 year
35 €

YOUR DREAM BIKE IN 4 STEPS

1 FIND THE PERFECT CATEGORY FOR YOU

Every bike is as individual as you are! Choose the category that best suits your everyday life and adventures:

	ALLROUND	SUV	COMPACT	COMFORT
Motorisation	Bosch	Bosch	Bosch	Bosch
Belt drive possible	yes	yes	yes	yes
For long tours	++	++	0	+
Light off-road	+	++	+	0
Short journeys in the city	++	+	++	++
For commuters	++	++	0	+
Travelling with a lot of luggage	++	++	+	0
For comfortable riding	+	+	+	++

	FULLY TOUR	CARGO	URBAN MOBILITY
Motorisation	Bosch	Bosch	Fazua / Neodrives
Belt drive possible	yes	yes	yes (except 6TY)
For long tours	++	0	+
Light off-road	++	0	0
Short journeys in the city	+	++	+
For commuters	0	+	+
Travelling with a lot of luggage	0	++	0
For comfortable riding	++	+	0

Discover more about
our model categories

2 FIND THE RIGHT MODEL SERIES FOR YOU

Within each category, you will find different model series that differ in terms of features and prices. To make it easier for you to choose your dream bike, we will show you the most important features and differences between our series. First, select the desired category (Allround, SUV, Compact) to then find the appropriate series.

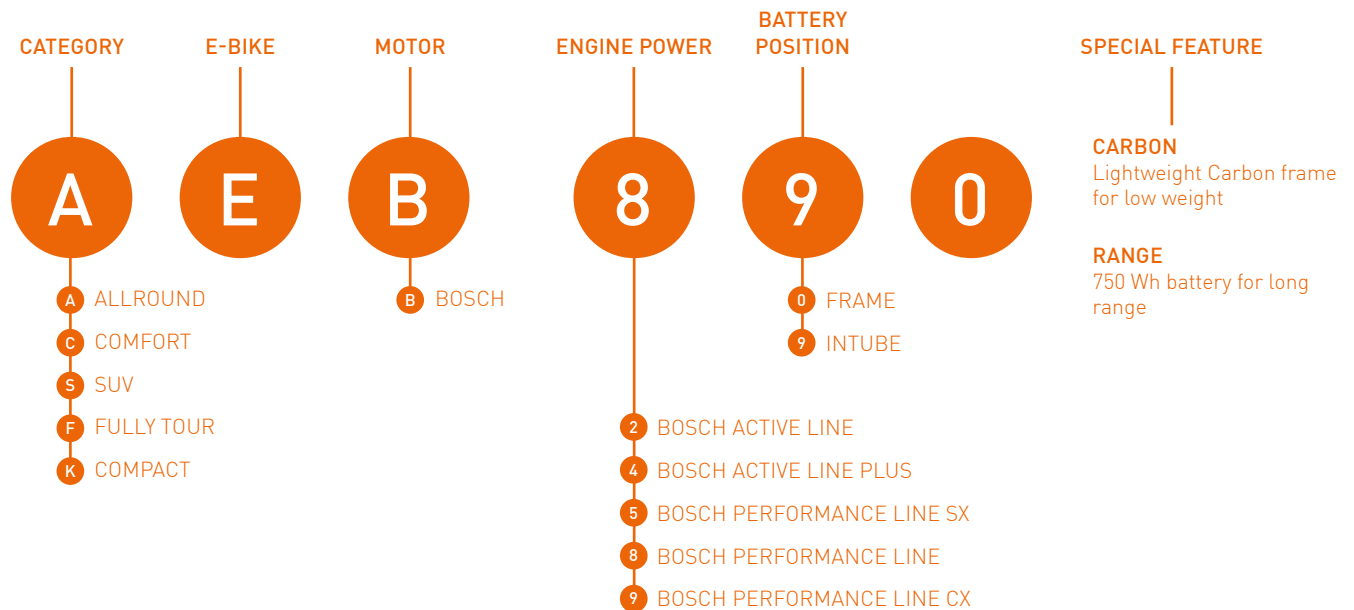

ALLROUND	AEB PRO	AEB PURE	AEB CLASSIC
Battery integration	Fully integrated	Fully integrated	Semi-integrated
Battery from	500 Wh	500 Wh	400 Wh
Battery cover	in frame colour	black	no cover
Maximum battery size	875 Wh (incl. Range Extender)	625 Wh	800 Wh
Variety of options	maximum	high	high
Headlight from	60 Lux	45 Lux	45 Lux
Modular carrier	yes	no	no
Front carrier possible	yes	no	no
Belt drive possible	yes	yes	yes
Available in 26"	yes	no	yes
from	3.519 €	2.999 €	2.689 €

SUV	SEB PRO	SEB PURE	SEB CLASSIC	SEB RANGE
Battery integration	Fully integrated	Fully integrated	Semi-integrated	Fully integrated
Battery from	500 Wh	500 Wh	400 Wh	750 Wh
Battery cover	yes	no	no cover	no
Maximum battery size	1050 Wh (incl. Range Extender)	625 Wh	800 Wh	750 Wh
Variety of options	maximum	high	high	high
Headlight from	70 Lux	45 Lux	45 Lux	70 Lux
Modular carrier	yes	no	no	no
Front carrier possible	yes	no	no	no
Belt drive possible	yes	yes	yes	yes
from	3.569 €	3.049 €	2.739 €	4.549 €

COMPACT	KEB PRO	KEB CLASSIC
Battery integration	Fully integrated	Semi-integrated
Battery from	400 Wh	400 Wh
Battery cover	in frame colour	no cover
Maximum battery size	650 Wh (incl. Range Extender)	800 Wh
Variety of options	maximum	high
Headlight from	60 Lux	45 Lux
Modular carrier	yes	no
Front carrier possible	yes	no
Belt drive possible	yes	yes
from	3.769 €	2.889 €

3 FIND THE RIGHT MODEL FOR YOU

We have named our models so that you can quickly identify the important features from the name itself: which drive system is installed in the e-bike, where is the battery positioned and for which purpose is the bike best suited?

In the Cargo category, you will find the following models, which have their own names

LOADY – long-tail cargo bike with Bosch drive

FR8 – cargo bike with Bosch drive Cargo Line

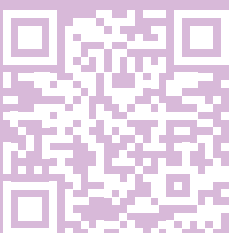

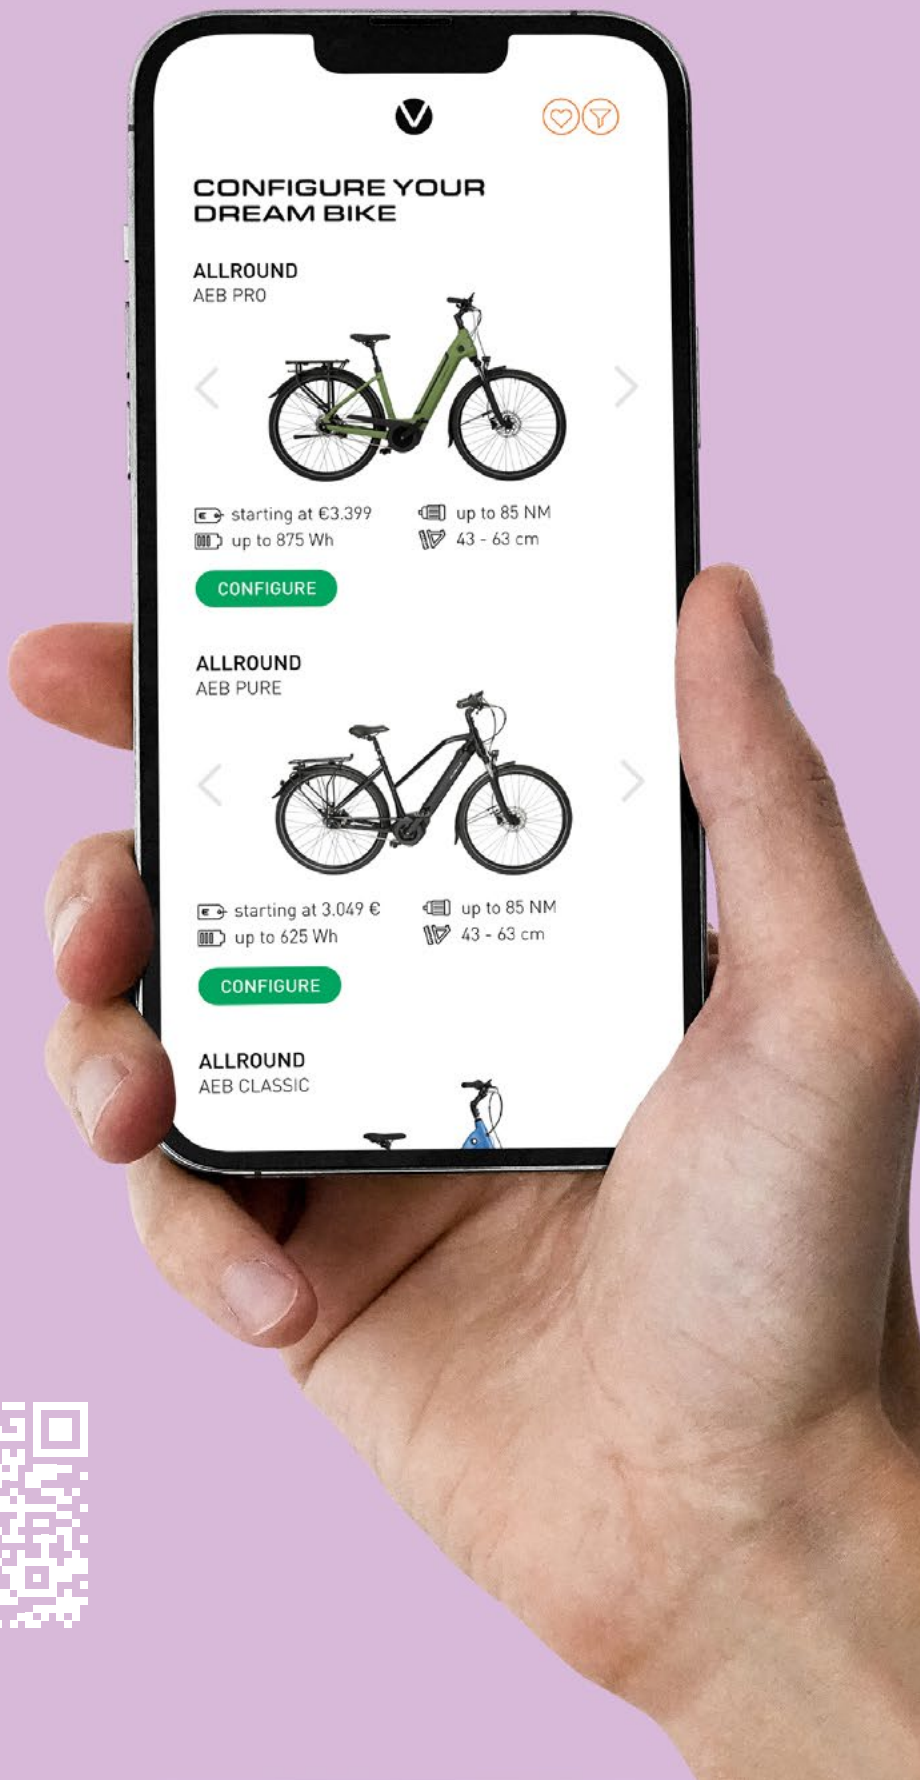

The Urban Mobility category also combines bikes with individual names

SPEED 4FIVE – SPEED 4FIVE – Speed Pedelec (45 km/h) with Neodrives drive

6TY – 6TY – lightweight urban bike with Fazua drive

4 CONFIGURE YOUR DREAM BIKE

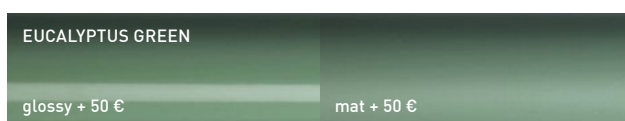

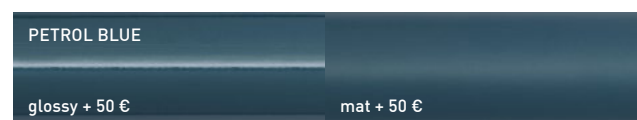

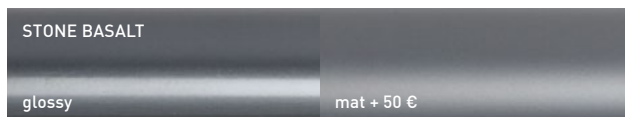

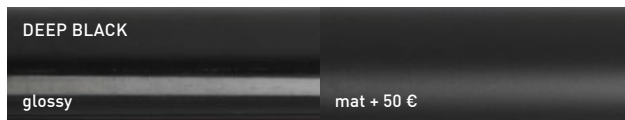

Make it your bike! Whether it's your favourite colour, a matching frame or custom options, your bike will be made exactly to your specifications. Your dream bike will be built with attention to detail and in premium quality, and it will usually be ready for your adventures in just 2-4 weeks.

OUR COLOURS

Colours are personal. They tell stories, radiate your energy and express individuality. That's why colours are an integral part of our custom-made concept. Whether you prefer vibrant or timeless, glossy or matte, you're sure to find your favourite in our colour palette. Let your creativity run free.

THROUGH YOUR DAILY ROUTINE IN STYLE. THE AEB PRO.

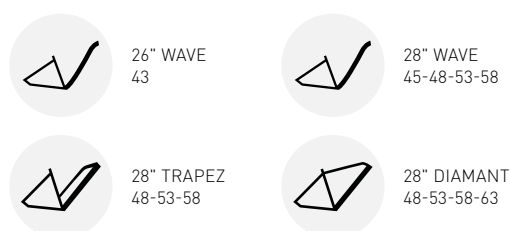

Our top model AEB PRO – your indispensable everyday companion! With its optimised geometry and high-quality basic equipment, it is not only perfect for your tours, but also the ideal daily companion. The perfect combination of comfort and sportiness makes the AEB a real all-rounder in our range.

Discover the variety with three different frame shapes and numerous configuration options to design your ideal bike. Finally, choose your favourite colour and your dream AEB bike is ready for its first unforgettable tours.

Discover the wide range of configuration options and customise the features of your AEB PRO to suit your needs!

SPORTY AND PERFECT. THE SEB PRO.

A new definition of sportiness: there is a good reason why our flagship model SEB PRO bears the 'S' of SUV. Its look and geometry have been consistently geared towards sporty performance, setting new standards compared to its predecessors. The choice between low entry, trapezoidal and diamond frame makes the new SUV series a frontrunner. Immerse yourself in a world of unrivalled sportiness – the SEB takes riding fun to a new dimension. Choose your style, choose your SEB.

 COMFORT

from 3.619 €

ELEGANCE MEETS TECHNOLOGY. THE CEB PRO.

The city is yours with our CEB PRO. The Comfort series has always stood for comfortable and carefree driving for short to medium distances. With the ultra-compact SX motor from Bosch, the CEB PRO has enough power for the city. It is lighter and visually sleeker, while retaining the comfortable seating position and upright geometry of its predecessor.

Weight transport box	ca. 74kg
Maximum overall weight	250kg

Discover the wide range of configuration options and customise the features of your FR8 to suit your needs!

RAW EDITION

Maximise your cargo space with our Raw version. The innovative combination of the Airliner system and lashing straps allows you to adjust and secure your cargo exactly as you need it. This ensures maximum safety during transport and optimal use of space.

RAIL EDITION

Choose the Rails version for a highly flexible cargo-only e-bike. Ideal for transporting boxes and other packaged goods, this version ensures your cargo is transported safely. For added stability, you can use tensioning straps to keep everything firmly in place.

FAMILY EDITION

Go for the family version for a versatile e-bike that has been specially designed for your loved ones. With a comfortable child seat and a protective rain cover, this model offers a safe and enjoyable ride for the whole family. An optional Maxi Cosi adapter also ensures the safe transport of your young child.

BOX EDITION

Choose the Box version for a safe and practical cargo e-bike. This model features a sturdy hard top with a lock and offers a safe and reliable solution for transporting goods. Perfect for keeping your items protected and secure during transit.

 COMPACT

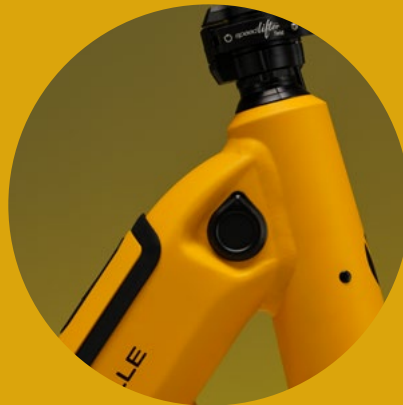

from 3.769 €

SMALL. COMPACT. AMAZING. THE KEB PRO.

A small, compact motor and a slim battery – that sounds like the perfect addition to our successful KEB PRO compact bike.

The small Bosch SX motor has just the right power to support you on your KEB PRO. If you prefer a little more power, you can also get the model with the new Bosch CX motor. With numerous options and 33 colours, the compact KEB PRO is the perfect companion for your tours.

YOUR CUSTOM MADE GRAVEL.

Discover the G 400 – the first gravel bike that you can customise in every detail! This gravel wonder offers you complete freedom: from lightweight wheels and a range of different gears to the practical Commuter Package, which makes your G 400 suitable for city and road use.

But that's not all: you can also customise the look of your G 400 to perfectly match your style! Choose from 33 unique colours and make your gravel bike a real eye-catcher that perfectly reflects your personality. Whether you go for bold and bright or elegant and discreet, your G 400 will be as individual as you are.

With our custom-made concept, you can create the gravel bike that will accompany you on every adventure – perfectly adapted, handcrafted in Germany and as colourful as your life.
